

FEATHERLITE 2.0

Push/Rock

The hand control that made Sure Grip famous now features the **most leg room** bar none in the industry!

NO gas rods, NO gas guards, NO resistance!

Push/Pull

The amazing *Short Stroke* push/pull, features no moving brake rod, and now **NO GAS ROD**, allowing for the most LAP and LEG room in the industry. Extremely short accelerator stroke and virtually no accelerator resistance allows for a smooth and easy drive!

Push/Twist

Motor Cycle Style Accelerator

What was once the most fatiguing style of driving is now available to virtually all disabilities. **NO gas rods, NO resistance** has redefined who can operate this style of hand control.

INTRODUCING

FEATHERLITE 2.0

PUSH/RIGHT ANGLE

Electronic acceleration means:

- No longer subject to OEM acceleration pedal resistance
- No more weight or force resulting from hard mounted rod to the OEM gas pedal
- Customize the hand control tension to the customers preference
- Activation button can be mounted anywhere within client reach
- All 4 styles of hand controls available for both left and right side operation
- Eliminating fatigue from all styles of mechanically operated hand controls
- Eliminates 'old style mechanical acceleration lock out'
- Makes Sure Grip's **SHORT STROKE Right Angle** and **Push/Pull** controls easiest operating on the market
- No pedal guard
- Choose between OEM Pedal & Hand Controls w/ push of button
- No need for a gas guard

THE EVOLUTION OF FEATHERLITE®

NEW

Digital Calibration

- Faster installation.
- Eliminates the mechanical POT adjustments.
- Calibration is as simple as pumping the OEM pedal and hand control.
- Automatically recalibrates on reset so you always have instant response from the hand control.

NEW

City Mode Button

With the touch of a button:

- Reduces maximum throttle by 50%
- Makes smoother driving in reduced speed scenarios e.g., city driving and parking.
- Toggle city mode on/off at any time.

"I have the FeatherLite® Push/Rock Hand Controls installed in my 2016 Toyota Sienna and absolutely love how much knee space the new style hand controls provide! They are effortless to use as well. Very happy with them! Switching over the pedals to the hand controls is very simple, much easier than the older style. Thank you Sure Grip!"

Kadi DeHaan, Clock Conversions

NEW

Brake Throttle Override

- New firmware utilizes the same method used by OEM industry leaders
- Available on all FeatherLite® Hand Controls
- Installation optional
- No impact on hill stop/starts or inclement weather driving

"My overall opinion of FeatherLite®: this is the best new product to the mobility industry in years and I cannot stress enough how pleased everyone involved with this install was. Thanks again to the staff at Sure Grip for an awesome product."

- Mike Hill, Mobility Works

"We installed a FeatherLite® product into a Town and Country. It went in very smoothly and functions flawlessly. Thanks for the quick and precise delivery of our parts!"

- Matt Milheim, Mobility Consultant, MC Mobility

"Want to give Sure Grip a shout out...two clients have [FeatherLite®] installed, they love it and so do I."

- John Vaughter, Eval., VA

THINK NEW...drive newer.
