SECTION 1: GENERAL INFORMATION

History of the College

United Nursing College is a private institution owned by CEO and medical physician, Dr. John Hong. United Nursing College was established in 2022 to meet the growing need for highly skilled registered nurses. The institution is located in Murrieta, California in a new 15,000 sq. foot building with dedicated classrooms, labs, and a state-of-the-art simulation lab.

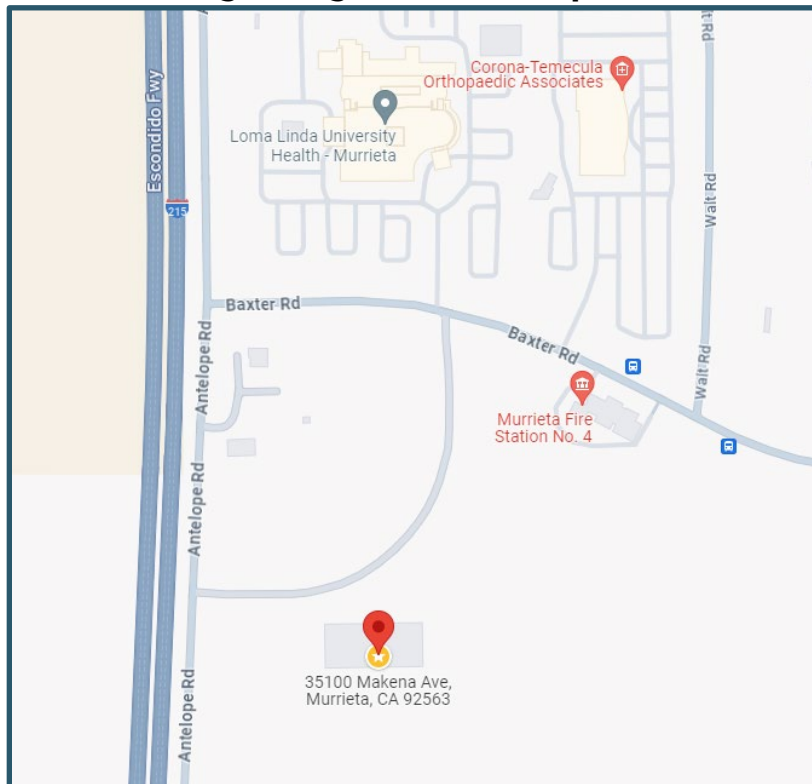

Approvals and Licensures

United Nursing College is a fully licensed business in California and is approved to operate by the Bureau of Private Postsecondary Education and approved by meeting compliance with state standards set forth in the California Education Code and California Code Regulations. United Nursing College is also approved to operate by the California Board of Registered Nursing (CABRN) education and license committee.

Location

Classes are held on the main campus located at 35100 Makena Ave. Ste. 202-203 Murrieta, California 92563. Clinical courses will be held at various medical facilities throughout Riverside, Orange, and San Diego Counties. Distance education courses will be held remotely.

United Nursing College Location/Map

Facilities

United Nursing College's campus is a 15,000 sq. foot student-centered building that houses five classrooms, three laboratories, and one high fidelity simulation laboratory. There is also a student meditation room, disability accommodations, library, and student lounge.

The nursing program uses a variety of equipment and supplies to provide a training center that simulates a realistic hospital environment. This includes, but is not limited to blood pressure cuffs, stethoscopes, thermometers, glucometers, weighing scales, nebulizers, mannequins, simulation equipment, electric hospital beds, IV pumps, ventilators, electrocardiogram machines, laptop computers, and disposable medical supplies.

Vision

"United We Learn"

Mission

The mission of United Nursing College is to transform students into highly skilled healthcare providers who deliver safe, compassionate care with a commitment to the pursuit of lifelong learning. The focus of United Nursing College is to deliver quality education through the development of intellectual, analytical, and critical thinking abilities through evidence-based practice that encompasses cultural competence and ethical standards, ensuring that our graduates are empowered to provide exceptional care across diverse communities amidst a dynamic healthcare climate.

Educational Philosophy

Exemplifying excellence and learner-centeredness with the unique privilege of educating student nurses, while highlighting the concepts of holism, collaboration, and respect.

Institutional Learning Outcomes

The institutional learning outcomes (ILOs) reflect the knowledge, skills, and professional values expected of the graduates of United Nursing College. These outcomes ensure graduates are prepared to deliver safe, compassionate, high-quality care to individuals, families, and communities in an ever-changing healthcare environment.

1. Provide inclusive, patient-centered care and education that promote health equity across diverse populations.
2. Collaborate across disciplines to optimize patient care and outcomes.
3. Apply evidence-based knowledge to improve nursing practice and population health.
4. Use clinical judgment to plan and provide safe, quality care across the lifespan.
5. Advance quality care and health equity through leadership and advocacy.
6. Apply evidence-based practices to deliver safe, high-quality care.
7. Use technology to support ethical care and effective communication.
8. Embody ethical, accountable professionalism through reflection, resilience, and lifelong learning.

Legal Disclosures

United Nursing College reserves the right to make changes at any time to any provision of this catalog, including academic programs and courses, course and program schedules, school policies and procedures, faculty and administrative staff, the school calendar and other dates, and other provisions. United Nursing College will notify students of any of the foregoing changes via email at the time the changes are made and in accordance with the requirements of accrediting and governmental regulatory agencies. The catalog will be provided either in writing or electronically to a prospective student or to any person upon request. Any program specific brochures shall also be disclosed to any interested person upon request.

As a prospective student, you are encouraged to review this catalog prior to signing an enrollment agreement. You are also encouraged to review the School Performance Fact Sheet, which must be provided to you prior to signing an enrollment agreement. The Office of Student Assistance and Relief is available to support prospective students, current students, or past students of private postsecondary educational institutions in making informed decisions, understanding their rights, and navigating available services and relief options. The office may be reached by calling (888)370-7589 or by visiting <https://www.osar.bppe.ca.gov>.

- United Nursing College does not have pending petitions in bankruptcy and is not operating as a debtor in possession. The institution has not filed a petition within the preceding five years, nor has had a petition in bankruptcy filed against it within the preceding five years that resulted in reorganization under Chapter 11 of the United States Bankruptcy Code.
- Earning a degree at United Nursing College does not guarantee employment.
- Non-discrimination Statement:
 - UNC does not discriminate on the basis of sex in its educational programs and activities, consistent with Title IX of the Education Amendments of 1972, the Clery Act, and the Violence Against Women Act (VAWA).
 - *Prohibited Student Conduct*
 - UNC strictly prohibits:
 - Sexual harassment, assault, and misconduct
 - Dating and domestic violence
 - Stalking
 - Retaliation

Educational Provider Agreements

United Nursing College does not operate any off-campus instructional sites outside the United States and does not participate in foreign educational provider agreements. All instruction and clinical training are conducted within California under the supervision of College faculty and approved clinical affiliates. Some clinical affiliations are overseen by consortiums in both San Diego and Riverside counties. United Nursing College holds no memberships in professional or trade associations.

Accreditation Status

United Nursing College is unaccredited at this time and is currently seeking institutional accreditation.

United Nursing College graduates are eligible to sit for the NCLEX-RN examination in California, as the California Board of Registered Nursing (BRN) provides approval for BRN approved nursing programs.

Students who obtain a degree from an unaccredited institution may not be recognized for some employment positions, including, but not limited to, positions with the State of California. This is at the employer's discretion.

Graduates from the nursing program enrolled in an unaccredited institution are not eligible for federal financial aid programs.

Notice to Prospective Degree Program Students

This institution is provisionally approved by the Bureau for Private Postsecondary Education to offer degree programs. To continue to offer degree programs, this institution must meet the following requirements:

- Become institutionally accredited by an accrediting agency recognized by the United States Department of Education, with the scope of the accreditation covering at least one degree program.
- Achieve accreditation candidacy or pre-accreditation, as defined in regulations, by 4/24/2025 and full accreditation by 4/24/2028.

If this institution stops pursuing accreditation, it must:

- Stop all enrollment in its degree programs, and
 - Provide a teach-out to finish the educational program or provide a refund.
- An institution that fails to comply with accreditation requirements by the required dates shall have its approval to offer degree programs automatically suspended.

SECTION 2: ADMISSIONS

Admissions Policy for the ADN Program

Policy: Students will be considered for admission to the Associate Degree in Nursing (ADN) program after meeting the following criteria:

- Must be 18 years of age
- Meet with an admissions representative (before or after filling out the application)
- Must provide proof of residency (physical location) in California with the following:
 - California issued driver's license or state issued I.D.
 - Current copy of utility bill
- All applicants must hold a diploma from an accredited high school or the recognized equivalent, e.g., General Education Development (GED) certificate. Provision of any one of the following documents will satisfy the high school diploma requirement:
 - A copy of an accredited high school diploma, or
 - A copy of the final official accredited high school transcript that shows the date when the diploma was awarded, or
 - A copy of the GED certificate or GED transcript that indicates passage of the exam, or a state-authorized high school equivalent certificate
 - A copy of an academic transcript that indicates successful completion of an associate degree or higher from an institution accredited by an accrediting agency recognized by the United States Department of Education, or
 - A copy of a credential for completion of a homeschool secondary school program equivalent to a high school diploma per state law, or
 - A copy of Form DD214 indicates the holder is a high school graduate.
 - Applicants who are unable to provide official documentation at the time of enrollment may complete a High School Graduation Attestation. The attestation must include the name of the high school attended, city, state, and year of graduation.
- High school diplomas must be granted by (1) an institution (or program in the case of a homeschooled applicant) recognized by the Department of Education in the state in which the applicant acquired the diploma, or (2) an institution accredited by an accrediting agency that is recognized by the U.S. Department of Education.
- Students admitted using a High School Graduation Attestation must submit official documentation of high school completion within 30 calendar days of the start of the program or first term. Failure to provide acceptable documentation within this timeframe may result in an administrative hold, suspension, or cancellation of enrollment.
- United Nursing College reserves the right to verify all high school completion credentials and will confirm that the issuing institution is recognized by the appropriate state or governing agency. Verification methods may include review of

official documents, direct contact with the issuing institution, use of third-party verification services, or review of state or recognized education databases. All verification activities are documented and maintained in the student's official academic record.

- Applicants who possess an AA or AS degree from a foreign college or nursing program must also:
 - Provide a translation and official evaluation of their degrees and diplomas awarded by foreign schools must be translated and evaluated for U.S. high school education equivalency (at applicant expense) before being accepted. Applicants with education completed outside the United States or its territories must provide a course-by-course foreign credential evaluation in accordance with the institution's Credit Award Policy.

Procedure:

Please read and complete the following steps:

1. Complete your prerequisite courses

- Applicants must have completed anatomy and physiology within seven (7) years of enrollment.
 - i. Applicants whose anatomy and physiology are older than seven (7) years must enroll in the institution's online refresher courses (A&P 1 refresher and A&P 2 refresher)
- Microbiology does not expire
- Applicants must complete general education prerequisite courses before application.
 - i. Students who need to take UNC's anatomy and physiology refresher courses for recency may apply providing they are enrolled in the refresher course(s).
- Applicants must have a 2.5 GPA or greater in prerequisite science courses (Human Anatomy, Physiology, General Microbiology).
- Applicants must have a 2.0 GPA or greater in prerequisite general education courses (English Composition, Intermediate Algebra or above, two courses in Social and Behavioral Health, Oral Communication, and Humanities).

2. Contact our admissions team to schedule an Assessment Technologies Institute (ATI) Test of Essential Academic Skills (TEAS).

- 951-526-1033
- info@uunursing.com

3. Take the ATI TEAS at UNC and obtain a minimum score of 59% or higher.

- The college will also accept the ATI TEAS admissions test scores from applicants taken at outside institutions for consideration of admission into the nursing program. For the ATI TEAS to be considered for entry into the program, the applicant must have achieved a score of 59% or higher.
- If unsuccessful on the first exam attempt, applicant is encouraged to remediate prior to retaking the exam. UUN/UNC is not responsible nor involved in an applicant's own remediation plan or process through ATI.
- Applicants may take the ATI TEAS up to 2 times per calendar year (at the student's expense), prior to the application period. The highest score will be used.
- ATI TEAS dated within 2 years of application will be considered.

4. Complete an online application for the Associate of Science in Nursing degree program.

- All documents submitted with the online application should be unofficial.

Applications will be evaluated as follows:

- UNC's admissions team will complete the ADN Admissions Criteria Point System Form by placing scores for relevant experiences, GPA, prerequisite courses, etc.
- Based on the total score, the applicant will be ranked among the other applicants applying for admission to the program with the current cohort.
- Applicants with the highest number of combined points who have met the minimum requirements for admission to the ADN program, will be accepted for admission. Should an opening occur, the applicant with the next highest number of combined points may be accepted for admission.
- Those who are not admitted to the current cohort must reapply to be considered for admission to a subsequent cohort.

Upon acceptance to the program:

- Submit an official diploma or transcript of record showing possession of a high school diploma or its equivalent, such as a GED or CHSPE, or sign attestation that they successfully completed high school.
- If admitted using a High School Graduation Attestation, this official documentation must be received within 30 calendar days of the start of the program or first term in accordance with institutional policy.
- Submit Official Transcripts of all courses taken at high schools, colleges, and universities.
 - Applicants seeking evaluation of prior coursework for transfer credit must comply with the institution's Credit Award Policy.
 - We will accept official transcripts via mail or email. If emailed, they must come directly from your school or Parchment.
 - Email: records@uunursing.com

- Mailing address: 35100 Makena Ave. Ste#202, Murrieta, CA 92563
- Applicants will be notified of admission to the program by email. Applicants must submit written confirmation of their acceptance within 14 days of receiving the admissions offer.
- Applicants who are not admitted to the ADN program may reapply. We recommend contacting our admissions team to discuss options for raising admission points.
 - 951-526-1033 or
 - info@uunursing.com

Advanced Placement Pathway Admissions Policy

Policy: United Nursing College (UNC) aims to provide an equitable plan and procedure for students who are seeking advanced placement in the ADN program. Because of the competitive nature of prospective LVNs and paramedics who are seeking an advanced placement seat, UNC will implement the following procedures.

Pre-Workshop Procedure:

1. Complete all pre-requisite courses with a minimum GPA requirement of 2.5 for science courses and 2.0 for other courses:
 - a. Anatomy with lab
 - b. Physiology with lab
 - c. Microbiology with lab
 - d. English Composition
 - e. Intermediate Algebra (or higher)
 - f. Psychology
 - g. Sociology
 - h. Oral Communications
 - i. Humanities
2. Advanced Placement applicants do not have to take UNC's affiliated entrance examination.
3. Provide proof of current unencumbered license.
4. Provide verification of at least one year of full-time employment within the past 3 years.
5. Provide official transcripts for all prerequisite coursework
6. Apply for the Mandatory Workshop Series prior to application deadline.
 - a. Application point totals will determine admittance into the Workshop Series

*****The workshop series does not guarantee admission into the Advanced Placement Pathway**

Post-Workshop Procedure:

Advanced Placement Algorithm

1. Student placement will be based on a cumulative workshop score and their result on the ATI Peds and OB examinations. Results compute to one of three levels, as demonstrated in Table 2.
2. To be considered for advanced placement into **third** semester, students **must** receive a Level 1 or higher on the ATI content mastery series examination in OB and Pediatrics, as demonstrated in Table 2.
3. Students who score below level 1 on the ATI content mastery series examination in OB and/or Pediatrics will be accepted into a semester as outlined in Table 2, with additional requirements for remediation, re-testing, and completion of required modules.
4. The final, cumulated workshop score as demonstrated in Table 1 will consist of points for all competencies that will be computed into a final, cumulative score to rank students within the cohort, determine student placement (together with the ATI level on Peds/Ob examinations), and assist students in at risk areas. Students deemed at risk based on the cumulative score will be accepted into the program as outlined in the table below with additional requirements for remediation, re-testing, and completion of required modules.
5. Acceptance into an advanced placement seat is based on the cumulative Workshop score, and the level of competency demonstrated on the ATI Peds and OB examinations, and seat availability.

Table 1: Components Cumulative Workshop Score

Assessments	Percentage Weighted	Final Computation
Exams:(4) 400 points		
Cumulative score of 280 (70%) or >	50%	140-200
Cumulative score of 240-279 (60-69.9%)	50%	120-139
Cumulative score of 239 (59%) or <	50%	0-119
Math:(2) 100 points (averaged before computing into table below)		
Score of 80 or >	30%	24-30
Score of 51-79	30%	15-23
Score of 0-50	30%	0-14
Skills: 280 points		
Cumulative score of 240 or >	20%	48-56
Cumulative score of 196-239	20%	39-47.9
Cumulative score 0-195	20%	0-38
Final cumulative maximum score		286

Table 2: Advanced Placement Legend

Locate your appropriate “cumulative workshop score” and “Level” on ATI Peds and OB content mastery examinations to determine placement.

The top 20 students will be ranked according to the table below.

Cumulative Workshop Score	Level on ATI Peds & OB (Content mastery series examination) Placement is based on the lowest level ATI examination score on the Pediatrics and OB exams	Final Placement Result
175 or >	Level 3	Unconditional acceptance into 3 rd semester
	Level 2 or Level 1	Conditional acceptance into 3 rd semester with submission of required remediation
	Below Level 1	Conditional acceptance into 3 rd semester with submission of required remediation and re-test on ATI peds and/or OB exams to a score of level 1 or higher*
0-174 + level as listed in next column	Level 1 or above	Not approved for third semester advancement. Recommend admission to first or second semester based on individual evaluation & seat availability.
	Below Level 1	Not approved for third semester. Recommend admission to first semester.

*Costs of ATI re-test Content Mastery examination(s) are the responsibility of the student.

ADN Transfer Student Admissions Policy

Policy: Transfer students from another pre-licensure nursing program will be considered for admission to the Associate Degree in Nursing (ADN) program.

In addition to compliance with all admission criteria transfer students must meet the following requirements:

Please read and complete the following steps:

1. Complete your prerequisite courses
 - Applicants must have completed anatomy and physiology within seven (7) years of enrollment.
 - i. Applicants whose anatomy and physiology are older than seven (7) years must enroll in the institution’s online refresher courses (A&P 1 refresher and A&P 2 refresher)
 - Microbiology does not expire
 - Applicants must complete general education prerequisite courses before application.

- ii. Students who need to take UNC's anatomy and physiology refresher courses for recency may apply providing they are enrolled in the refresher course(s).
 - Applicants must have a 2.5 GPA or greater in prerequisite science courses (Human Anatomy, Physiology, General Microbiology).
 - Applicants must have a 2.0 GPA or greater in prerequisite general education courses (English Composition, Intermediate Algebra or above, two courses in Social and Behavioral Health, Oral Communication, and Humanities).
2. Transfer students do not have to take UNC's entrance examination.

Acceptance of Credit

Students who have completed coursework at a university or college that is regionally or nationally accredited by an agency recognized by the United States Department of Education or the Council for Higher Education Accreditation (CHEA) may request an evaluation for transfer credit.

Applicants with coursework completed outside of the United States or its territories must provide a course-by-course foreign credential evaluation in accordance with the institution's Credit Award Policy.

Acceptance of credit may be awarded credit if the course:

- Includes the same or similar content;
- Requires the same or similar prerequisite coursework;
- Is equivalent in learning and hour components;
- Is offered at the same level of instruction;
- Has been completed with a grade of C (or better);
- Has a P/Pass grade and the minimum required grade to earn a pass is equivalent to a C (or better);
- Meets any program-specific transfer credit requirements.

Transfer requests for pre-licensure nursing coursework:

- ADN (Associate Degree in Nursing) prelicensure nursing coursework completed at another university or college must have been enrolled in an accredited nursing program within the past 18 months.
- Transfers into the ADN program will be on a seat-available basis only.

Transfer Credit Evaluation Requirements

To receive an evaluation for transfer credit of pre-licensure nursing courses students must:

- Transfer students will comply with all admission criteria for the ADN program.
- Provide the college with all official transcripts, course descriptions, and/or course syllabi (if requested) before enrollment. Failure to submit required documentation prior to enrollment may result in the denial of transfer credit.
- Official transcripts can be sent electronically via Parchment or the school, mailed directly from a school, or delivered in person by the student. Seals must be unbroken, and the transcript must bear the official seal and/or signature of the registrar of the school sending the transcript.

- For military veterans, the DD214 and accompanying documentation will serve as a transcript for the evaluation of a course of study or training in the Armed Forces.
- Students seeking re-enrollment may request an evaluation of transfer credit for courses taken preceding dismissal or withdrawal and prior to re-enrollment.

To receive an evaluation for transfer credit(s) for pre-licensure nursing coursework, in addition to the above, students must:

- Complete and submit a Transfer Application for the courses completed at another pre-licensure program.
- Complete the affidavit acknowledging understanding that transfer students are accepted on a seat availability basis only and the 18 months since enrollment may pass before a seat becomes available which would render them ineligible for transfer.

If a student chooses to decline credit for any course for which the student is eligible to receive transfer credit, the student will document the declination of credit on the Transfer of Credit Acknowledgement form to be filed in the student's record. The student must accept or decline transfer credit prior to enrollment in the program for which transfer credit was requested.

Students who have completed U.S. Military Service courses may be awarded transfer credit for DANTES education courses that have been completed if the courses are consistent with the institution's Credit Award Policy.

RN to BSN Program Admissions Policy

The RN to BSN undergraduate program has two entry pathways for 1. Registered Nurses (RN) with an unencumbered California license or 2. Students who are concurrently enrolled in the ADN program at United Nursing College (ACE). ACE stands for the ADN Concurrent Enrollment Pathway. The RN to BSN program is not a pre-licensure program. Applicants will be considered for admission to the Registered Nurse (RN) to Bachelor of Science in Nursing (BSN) program based on the following admission criteria:

Entry Pathways

Registered Nurse (RN) Entry Pathway

Registered Nurses are considered for admission to the RN to BSN program after meeting the following criteria:

- Provide evidence of current, unrestricted licensure to practice professional nursing in the state of California.
- Provide proof of California residency.
 - Government issued ID or state issued ID.
 - Current copy of utility bill.
- Meet with an admissions representative (before or after filling out the application)
- Provide evidence of:
 - A.A or A.S. degree in Nursing
 - Official transcripts of all colleges attended
- Applicants who possess an AA or AS degree from a foreign college or nursing program must also:
 - Provide a translation and official evaluation of their degree before consideration for admission at applicant's expense.
 - Provide a course-by-course foreign credential evaluation conducted by an agency that is a current member of the National Association of Credential Evaluation Services (NACES) or the Association of International Credential Evaluators (AICE).
- Students must be able to use basic computer skills to participate in online distance education classes that require computer and internet access.

ADN Concurrent Enrollment (ACE) Entry Pathway

Nursing students enrolled in an ADN program at United Nursing College are considered for admission to the RN to BSN program after meeting the following criteria:

- Meet with an admissions representative (before or after filling out the application)
- Be in good standing in all courses
- Have successfully completed nursing Fundamentals in the ADN program (NURS100)
- Submit official transcripts of all colleges attended to include
 - all prerequisite courses
 - successful completion of a minimum of one semester of an accredited ADN nursing program with a GPA of 2.0 or greater
- Students must be able to use basic computer skills to participate in online distance education classes that require computer and internet access.

Articulation Agreements

This institution has not entered into any transfer or articulation agreements with any other school for the currently offered programs.

Ability-to-Benefit Examination and CLEP Assessments

United Nursing College does not have nor recognizes the Ability to Benefit Examination and does not accept CLEP assessments as an alternative qualification for enrollment/admission to UNC.

Credit Award Policy and Procedure

Policy: United Nursing College provides opportunities for students to receive credit toward their program through transfer credit, Advanced Placement credits, military education and training, and experiential learning, in accordance with institutional policy, the standards of the Accrediting Bureau of Health Education Schools, and the California Board of Registered Nursing.

Definitions:

Advanced Placement (AP) Credit is transfer credit awarded for qualifying scores on College Board examinations. It is recorded as credit (CR/TR), carries no letter grade, and does not impact GPA. AP credit is applied toward general education requirements where equivalency is established in accordance with the institution's Credit Award Policy.

Advanced Placement Pathway (LVN/Paramedic Entry) is an admissions pathway that allows qualified licensed healthcare professionals to enter the program at an advanced level based on prior education, licensure, and demonstrated competency. This pathway determines placement only and does not, by itself, award academic credit (See AP Admission policy). Any credit for prior learning is evaluated separately under the Credit Award Policy.

Experiential Learning Credit refers to credit awarded for prior education, training, licensure, or relevant work experience. Experiential learning credit is distinct from the Advanced Placement Pathway; credit determinations and placement decisions are made independently.

Procedure:

Transfer Credit

Students who have completed coursework at a university or college accredited by an accrediting agency recognized by the United States Department of Education (USDE) or the Council for Higher Education Accreditation (CHEA) may request an evaluation for transfer credit.

For coursework completed outside the United States or its territories, the institution requires a course-by-course foreign credential evaluation conducted by an agency meeting the institution's Foreign Credential Evaluation Policy.

The agency conducting the foreign education equivalency evaluation must:

- Maintain published standards for membership
- Hold affiliations with international higher education associations
- Be frequently linked to and used by federal agencies, educational institutions, and employers
- Be a current member of either the
 - National Association of Credential Evaluation Services (NACES), or
 - Association of International Credential Evaluators (AICE)

The evaluation must verify that the applicant's education is equivalent to United States secondary and/or postsecondary educational standards. A course-by-course evaluation is required when the applicant requests transfer credit for previously completed coursework. All transcripts and supporting documents not in English must be accompanied by a certified English translation.

A list of recognized credential evaluation agencies (NACES or AICE members) is available through the United Nursing College website. United Nursing College provides access to a discounted application through SpanTran via the institutional website.

Transfer credit may be awarded if the course:

- Includes the same or similar content
- Requires the same or similar prerequisite coursework
- Is equivalent in learning and hour components
- Is offered at the same level of instruction
- Has been completed with a grade of C or better
- Has a P/Pass grade and the minimum required grade to earn a pass is equivalent to a C or better
- Meets any program-specific transfer credit requirements

Pre-requisite and general education courses required for the Associate Degree in Nursing and RN to BSN programs may be accepted in transfer if the coursework is determined to be substantially equivalent in content, academic level, and credit value to the required course.

ADN prelicensure nursing coursework completed at another university or college must be completed within 18 months of enrollment.

Advanced Placement (AP) Credit

United Nursing College may award transfer credit for qualifying scores earned on Advanced Placement (AP) examinations administered by the College Board.

AP coursework is considered for credit if the student achieves a minimum score of 3 in:

- AP Calculus AB
- AP Calculus BC
- AP English Language and Composition
- AP English Literature and Composition
- AP Psychology
- AP Statistics

Official AP score reports must be submitted directly from the College Board. AP credit is awarded as transfer credit only and is recorded as credit (CR/TR) on the student transcript. No letter grade is assigned and the credit does not impact the student's grade point average (GPA). AP credit may be applied toward general education requirements where course equivalency is established. A maximum of 12 units may be credited. AP credit is not accepted for nursing core courses.

Military Education and Training Credit

Standardized Examinations (DANTES/DSST)

Students may be awarded transfer credit for standardized examinations supported through the Defense Activity for Non-Traditional Education Support (DANTES), including DSST (DANTES Subject Standardized Tests), where such examinations are equivalent in content, level, and learning outcomes to the required program coursework. Official score reports must be submitted for evaluation. Credit will be considered based on institutional standards for minimum passing scores and course equivalency. Credit awarded for standardized examinations is recorded as transfer credit and does not include a letter grade or impact the student's grade point average (GPA).

Joint Services Transcript

United Nursing College may award credit for military education and training as documented on the Joint Services Transcript (JST) or other official military records. Military coursework and training are evaluated for equivalency in content, academic level, and learning outcomes to courses offered at the institution. Credit recommendations from the American Council on Education (ACE) may be considered as part of the evaluation process but are not binding. Students must submit a DD214 and/or official JST and supporting documentation for evaluation.

Experiential Learning

Credit Evaluation Process

- United Nursing College may award credit for experiential learning to qualified applicants, including licensed vocational nurses (LVNs), paramedics, military personnel and psychiatric technicians.
- Experiential learning credit is awarded based on documented education, training, licensure, and demonstrated competency equivalent to course learning outcomes.
- Credit is not automatically awarded and must be validated through institutional assessment methods.
- Credit, if awarded, is recorded as non-traditional credit, does not include a letter grade, and does not impact the student's grade point average (GPA). All credit awards are subject to institutional policies and program requirements.

Licensed Vocational Nurses & Paramedics

Licensed Vocational Nurses (LVNs) & Paramedics may be considered for experiential learning credit based on education, licensure, and competency validation. Such evaluations may be informed by competency assessments completed as part of the Advanced Placement Pathway; however, placement and credit determinations are separate processes. An active and unencumbered license may waive the entrance examination; however, licensure alone does not guarantee the award of credit.

Participation in the Advanced Placement Pathway, including completion of the institution's mandatory workshop series and required competencies, is part of the admissions process and does not, by itself, result in the award of academic credit.

Competency validation may include, but is not limited to:

- Written examinations
- Skills assessments
- Simulation-based evaluations
- Faculty review of clinical competency

Military Personnel & Psychiatric Technicians

Psychiatric Technicians and qualified military medical personnel (e.g., medics and corpsmen) may be considered for experiential learning credit for NURS100 (Fundamentals) only. Credit is not automatic and requires documentation of prior education and training, proof of active, unencumbered licensure or military training, and successful completion of competency validation. Credit, if awarded, is recorded as non-graded credit and does not impact GPA. Military personnel that may be considered for credit for NURS100 based on qualifying roles, include:

- Navy HM / Air Force BMTCP
- Army 68W Medic
- Air Force IMDT

To be considered for experiential learning credit, applicants must:

- Submit official transcripts and documentation of prior education and training
- Provide proof of current, valid, and unencumbered licensure, if applicable

- Provide military documentation (e.g., DD214 and supporting records), if applicable
- Submit sufficient documentation to allow evaluation of course equivalency, including certifications and training records

Limitations on Credit Award

Credit awarded by any method (transfer, AP, military, or experiential learning):

- Must be applicable to the student's program of study
- Must be substantially equivalent in content, level, and learning outcomes
- Will not be awarded for duplicate coursework
- May not be awarded for all courses in the program

All non-traditional credit (AP, experiential, military) is recorded as transfer or credit (CR/TR), does not include a letter grade, and does not impact GPA. Students must complete the required coursework at United Nursing College to meet program and regulatory requirements. The institution maintains documentation supporting the evaluation and award of all experiential learning credit, including transfer, experiential learning, military education, and standardized examinations.

Transfer Credit Evaluation Procedure

To receive an evaluation for transfer credit, students must:

- Provide the institution with all official transcripts, course descriptions, and/or course syllabi (if requested) prior to enrollment. Failure to submit required documentation prior to enrollment may result in the denial of transfer credit.
- Official transcripts can be sent directly from a school or delivered in person by the student. Seals must be unbroken, and the transcript must bear the official seal and/or signature of the registrar of the school sending the transcript.
- For military veterans, the DD214 and accompanying documentation will serve as a transcript for the evaluation of a course of study or training in the Armed Forces.
- Students seeking re-enrollment may request an evaluation of transfer credit for courses taken preceding dismissal or withdrawal and prior to re-enrollment.
- Under no circumstances will an unofficial transcript be accepted for evaluation of transfer credit.

If a student chooses to decline credit for any course for which the student is eligible to receive transfer credit, the student will document the declination/waiving of credit on the institution's waiver form to be filed in the student's record. The student must accept or decline transfer credit prior to enrollment in the program for which transfer credit was requested.

Appeal Process

If credit is denied, the student may submit a written appeal to the Director of Nursing within 30 calendar days. The Director of Nursing will render the final determination.

Fees

The fee for assessment of experiential learning is included in the application fee.

International Student Applicants

United Nursing College does not enroll international students. This means students must be a legal resident of the United States. Students in United States on a visa are not eligible for enrollment. The institution does not issue Form I-20, does not participate in the Student and Exchange Visitor Program (SEVP), and does not provide visa sponsorship or immigration services.

Legal residents of the United States who have completed education outside of the United States or its territories may be considered for admission, provided they meet all institutional and program-specific admission requirements. Applicants with international education must comply with the institution's requirements for foreign credential evaluation as outlined in the Credit Award Policy.

All instruction at United Nursing College is delivered in English. The institution does not provide English as a Second Language (ESL) instruction and does not admit applicants for the purpose of English language training. Applicants must be able to participate in instruction delivered in English.

SECTION 3: FINANCIAL INFORMATION

Schedule of Total Charges

Associate Degree in Nursing Pre-Licensure Program Pricing (Fall 2026)

Semester 1 - NURS 100 (10 units)	
Institutional Fees	
Student Tuition (\$1,764/unit)	\$17,640
Non-Refundable Application Fee	\$75
Assessment Fee for Transfer of Credits	\$150
Textbooks (estimated)	\$150
Skills lab kit	\$250
Learning Management Systems	\$1,200
Non-refundable Student Tuition Recovery Fund (STRF) (\$0.00 per \$1000)	\$0
Non-Institutional Fees	
Complio Subscription (Immunization Package, Background Check, Drug Screen)	\$113
Total Charges - Semester 1	\$19,578
Semester 2 - NURS 110, NURS 120P, NURS 130MS (9 units)	
Institutional Fees	
Student Tuition (\$1,764/unit)	\$15,876
Textbooks (estimated)	\$150
Skills lab kit	\$125
Learning Management Systems	\$1,200
Total Charges - Semester 2	\$17,351
Semester 3 - NURS 210B, NURS 220G, NURS 230MS (9 units)	
Institutional Fees	
Student Tuition (\$1,764/unit)	\$15,876
Textbooks (estimated)	\$150
Skills lab kit	\$125
Learning Management Systems	\$1,200
Total Charges - Semester 3	\$17,351
Semester 4 - NURS 240 (8.5 units)	
Institutional Fees	
Student Tuition (\$1,764/unit)	\$14,994
Textbooks (estimated)	\$150
Skills lab kit	\$125
Learning Management Systems	\$1,200
Total Charges - Semester 4	\$16,469
Total Estimated Program Charges	\$70,749

RN to BSN Program Pricing (2026)

Institutional Fees	
Application Fee (non-refundable)	\$75.00
Assessment Fee for Transfer of Credits	\$100.00
Learning Management Systems	\$125.00
Textbooks (estimated)	\$950.00
Non-refundable Student Tuition Recovery Fund (STRF) (\$0.00 per \$1000)	\$0.00
Core Nursing Tuition (\$135/quarter unit)	
NURS 310: Transition to Professional Nursing (4.5 quarter units)	\$607.50
NURS 320: Cultural Influences in Healthcare (4.5 quarter units)	\$607.50
NURS 330: Legal and Ethical Decision-Making in Nursing (4.5 quarter units)	\$607.50
NURS 340: Information Technology in Nursing Practice (4.5 quarter units)	\$607.50
NURS 410: Pathophysiology (6 quarter units)	\$810.00
NURS 415: Health Assessment (6 quarter units)	\$810.00

NURS 445: Professional Research Capstone (6 quarter units)	\$810.00
ELECTIVE COURSE 1 BIO 465: Exercise and Nutrition Physiology (6 quarter units)	\$810.00
ELECTIVE COURSE 2 BST 460: Biostatistics for Evidence-based Practice in Nursing (6 quarter units)	\$810.00
ELECTIVE COURSE 3 ENG 450: Critical Reasoning in Advanced Communication (6 quarter units) (if needed)	\$810.00
ELECTIVE COURSE 4 PSY 400: Psychopathology (6 quarter units) (if needed)	\$810.00
Total Estimated Program Charges	\$11,780

Student Tuition Recovery Fund (STRF)

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 1747 North Market Blvd., Suite 225, Sacramento, California, 95834, (916) 574-8900 or (888) 370-7589.

To be eligible for STRF, you must be a California resident or enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss because of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120-day period before the closure of the institution or location of the institution or were enrolled in an educational program within the 120-day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years

from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of non-collection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.

Note: Authority cited: Sections 94803, 94877 and 94923, Education Code. Reference: Sections 94923, 94924 and 94925, Education Code.

Student Application for Refund of STRF funds

A student seeking reimbursement under the Fund shall submit an application to the Bureau, either in English or Spanish, using the Application for Student Tuition Recovery Fund (STRF App Rev. 11/20) or the Solicitud al Fondo de Recuperacin de Matriculas para Estudiantes (STRF App Rev. 11/20), which are hereby incorporated by reference. The application is signed under penalty of perjury that the statements the applicant makes in the application are true and correct and all submitted supporting documents are true and correct copies of originals.

(b) The application must be completed and received by the Bureau, with sufficient supporting documents reasonably necessary to the Bureau's evaluation of the application.

(1) The application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF, unless the student was either enrolled at a California campus of a Corinthian Colleges, Inc., institution or was a California student enrolled in an online program offered by an out-of-state campus of a Corinthian Colleges, Inc., institution, if (a) the student would otherwise meet one of the eligibility requirements for a STRF payment, and they were residing in California and attending a campus of Corinthian Colleges, Inc., institution on or after January 1, 2010; or (b) the student was enrolled as of June 20, 2014, or withdrew within 120 days of that date, and did not complete the student's program at the institution.

(2) A student whose loan is revived by a loan holder or debt collector after a period of non-collection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

(c) The Bureau may conduct an investigation to verify whether to grant or deny a claim and may request any additional information or supporting documentation.

Note: Authority cited: Sections 94803, 94877 and 94923, Education Code. Reference: Sections 94870 and 94923, Education Code.

A student seeking reimbursement under the Fund shall file a written application on the Bureau's Student Tuition Recovery Fund Application Form signed under penalty of perjury that the form and all attachments are true and correct, which includes the following information

1. The student's name, address, telephone number, email address, and social security number or taxpayer identification number
2. If any portion of the total charges were paid from the proceeds of a loan, the name of the lender, and any state or federal agency that guaranteed or reinsured the loan
3. Proof of the amount and description of the student's economic loss for the educational program, and the amount of the student's claim
4. Proof of the date the student started and ceased attending the institution
5. A description of the reasons the student ceased attending the institution, or if the student graduated, date of graduation
6. The student's or borrower's authorization to allow the Bureau to negotiate with any lender, holder, guarantee agency, or the U.S. Department of Education on the student's behalf to reduce the loan obligation
7. The student's authorization to allow the Bureau to issue a payment directly to any lender, holder, guarantee agency, or the U.S. Department of Education on the student's behalf
8. An assignment to the Fund and the Bureau of the student's rights to collect those funds against the institution if any payment issues as a result of the application
9. The institution name, address and phone number in which where the students attended
10. Proof that the student was a California resident at time of enrollment, or was enrolled in a residency program
11. Proof that the student paid into the STRF
12. If the student took an approved leave of absence, and documentation of the approval
13. Whether the student has previously applied for STRF reimbursement
14. Whether the course of study or portion completed prepared the student to take a state or national licensure exam
15. If the student transferred to another school, a list of all classes or units transferred.

The application must be fully completed and received by the Bureau, with supporting documents that include, but need not be limited to, the enrollment agreement, promissory notes, if any, and any receipts, within two years from date of the closure notice explaining the student's rights under STRF, whether provided by the institution or the Bureau, or a maximum of four years if the student received no closure notice.

Claims Amount, Payment, and Denial

Per California Code of Regulations § 76210: A student seeking reimbursement under the Fund that includes student loans as part of the claim shall make reasonable attempts to obtain a loan discharge directly from the loan holder before the Bureau will complete the processing of the student's application for payment under section 76200.

The Bureau may negotiate with a lender, holder, guarantee agency, or the U.S. Department of Education for the full compromise or write-off of student loan obligations to relieve students of economic loss and, if possible, to reduce the liability of the Fund for the payment of claims.

The Bureau may pay a student's claim directly to the lender, holder, guarantee agency, or U.S. Department of Education as permitted by law.

If the Bureau grants the claim, the amount of the payment is measured by the total amount of the student's economic loss, as defined in Section 76000, less the amount of any refund, reimbursement, indemnification, restitution, compensatory damages, settlement, debt forgiveness, discharge, cancellation, compromise or any other benefit received by, or on behalf of, the student that is related to the economic loss. The amount of the payment is not dependent on, or necessarily limited to, the amount of refund the student would have received from the institution if the student had voluntarily withdrawn. The Bureau cannot pay any claim to or for a student without a social security number or a taxpayer identification number.

In addition to the reductions above, the Bureau may reduce the amount of the payment by the value of the benefit, if any, of the education obtained by the student before the closure of the institution.

For a student who suffers educational opportunity loss whose charges were paid by a third-party payer, the Bureau will pay the student's charges at a subsequent institution up to the original third-party payer benefit once the student has exhausted his or her eligibility with the original third party-payer benefit. The subsequent institution must be eligible to receive the same third-party payer benefit as the original institution or program, and the Bureau must have evidence of the student's enrollment at the subsequent institution.

If a student participated in a teach-out, the following conditions also apply:

- If the student withdraws from the teach-out institution within the first two weeks of enrollment, the student's economic loss is calculated as though the student never received the teach-out.
- If the student withdraws from the teach-out institution after the first two weeks of enrollment, the student's economic loss includes only a pro rata portion of charges for the hours of the education service paid for, but not received from, either institution.
- If the teach-out institution provides all the remaining instruction that the closed institution had represented it would provide, the student's economic loss shall not include any amount the student paid to the closed institution specifically for instruction.
- Regardless of participation in a teach-out, a student may recover economic losses other than those specifically related to the instruction.

Upon payment of the claim, all the student's rights against the institution for that amount of payment shall be deemed assigned to the Bureau.

If the Bureau denies the claim, or reduces the amount of the claim, the Bureau may informally consider a written appeal and modify its decision.

If a written appeal is not received by the Bureau within 60 calendar days from the date of the decision, the Bureau's decision shall be final.

STUDENT'S RIGHT TO CANCEL

The student has the right to cancel and obtain a refund of charges paid through attendance at the first class session, or the seventh day after enrollment, whichever is later.

You have until: ___/___/___ to cancel this enrollment agreement.

Enrollment Agreement Cancellation Policy

The student may cancel the enrollment agreement and obtain a refund of charges paid, less the non-refundable fees and STRF fee, if canceled on or before the first class session, or the seventh day after enrollment, whichever is later.

Enrollment Agreement Cancellation Refund Policy

Enrollment agreement cancellations will result in a refund, less the non-refundable fees and STRF fee if the cancellation meets the required deadlines and follows the outlined procedure. Refunds will be issued within 45 days of the date of cancellation.

Enrollment Agreement Cancellation Procedure

The procedure to cancel the enrollment agreement is as follows:

- The student must submit written notice of cancellation or withdrawal in accordance with institutional procedures, including via email to the Director of Nursing or designee.
- Cancellation is effective on the date email notification is sent in accordance with institutional procedures.
- The nursing student must complete and submit the Cancellation/Withdrawal form within 48 hours of emailing the Director of Nursing or designee in accordance with institutional procedures.
- The refund will be issued to the student within 45 days of the date of cancellation, less the non-refundable fees and STRF fee if the cancellation meets the required deadlines and follows the outlined procedure.

Cancellation, Withdrawal, and Failed Course Refund Policy and Procedure

A cancellation or withdrawal from the program will result in a refund of 100%, less the non-refundable fees and STRF fee, if the initiation and completion of the cancellation or withdrawal is made through the director of nursing or designee in accordance with institutional procedures as follows:

You may withdraw from the school at any time after the cancellation period and receive a pro-rated refund if you have completed 60% or less of the scheduled days in the period of attendance in your program through the last date of attendance. Refunds are calculated on a pro-rata basis using the number of scheduled days completed in the period of attendance divided by the total number of scheduled days in that period. The refund will be less non-refundable institutional fees and STRF fee and will be issued within 45 days of withdrawal. If the student has completed more than 60% of the period of attendance for which the student was charged, the tuition is considered earned and the student will receive no refund.

Receipt of course materials or access to course content does not eliminate eligibility for a prorated refund. Any scheduled days in which the student was absent but expected to attend shall be included in the calculation of days attended.

The following timelines are provided as general reference points only and do not determine refund eligibility. Refunds are based solely on the percentage of scheduled days completed in the period of attendance.

For traditional (face-to-face), hybrid courses, and online courses:

- 16-week courses: Students who withdraw around the end of week 9 are generally within the 60% period of attendance; however, refund eligibility is determined solely based on the percentage of scheduled days completed.
- 10-week courses: Students who withdraw around the end of week 6 are generally within the 60% period of attendance; however, refund eligibility is determined solely based on the percentage of scheduled days completed.
- 8-week courses: Students who withdraw around the end of week 5 are generally within the 60% period of attendance; however, refund eligibility is determined solely based on the percentage of scheduled days completed.
- 5-week courses: Students are eligible for cancellation within the 7-day cancellation period; thereafter, refund eligibility is determined based on the percentage of scheduled days completed.

Asynchronous distance education courses: The student has the right to cancel the enrollment agreement and receive a full refund before the first lesson and materials are received. Thereafter, the student may withdraw from the program and will be subject to the institution's standard refund policy. Receipt of course materials or access to course content does not eliminate eligibility for a prorated refund. Refunds will be calculated on a pro-rata basis based on the percentage of scheduled days completed in the period of attendance and will be issued within 45 days of the student's withdrawal date.

Failed Course:

- Students who do not successfully pass a course will be subject to the institution's standard refund policy based on withdrawal and the percentage of the period of attendance completed.
- Students are responsible for returning issued institutional property, including scrubs and ID badges, in accordance with institutional policy.

Faculty members have the right to initiate a student withdrawal from a course due to student's conduct, including, but not limited to, a student's lack of attendance. Students who are dismissed after the withdrawal/cancellation dates as listed above will not receive a refund. See Attendance Policy for further details.

Procedure to withdraw from a program or course is as follows:

- The student must submit written notice of cancellation or withdrawal in accordance with institutional procedures, including via email to the Director of Nursing or designee. Cancellation is effective on the date email notification is sent.
- The nursing student must complete and submit the Cancellation/Withdrawal form within 48 hours of emailing the Director of Nursing or designee in accordance with institutional procedures.
- The refund will be issued to the student within 45 days of the date of cancellation, less the non-refundable fees and STRF fee, if the cancellation meets the required deadlines and follows the outlined procedure.

For the purpose of determining the amount of the refund, the date of the student's withdrawal shall be deemed the student's last date of attendance or last date of academic activity, as applicable. The student who obtains a loan to pay for an educational program will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund.

The student who defaults on a federal or state loan, both of the following may occur:

- The federal or state government or a loan guarantee agency may take action against the student, including applying any income tax refund to which the person is entitled to reduce the balance owed to the loan.
- The student may not be eligible for any other federal student financial aid at another institution or other government financial assistance until the loan is repaid.

Tuition liability is divided by the number of terms in the program. Total tuition liability is limited to the term during which the student withdrew or was terminated, and any previous terms completed.

Financial Aid Disclosure

The institution does not participate in Title IV federal financial aid programs and does not offer federal financial aid. As an alternative, eligible students may apply for financing through an external third-party lender. Approval, terms, and repayment obligations are determined solely by the lender and are not guaranteed by the institution. Students are encouraged to review all loan terms carefully before entering into any financing agreement.

Payment Plan Option

United Nursing College offers optional tuition payment plans, including interest-free options and extended plans with simple interest rates starting from 0%, depending on the selected terms. Payment schedules vary and may extend beyond the academic term. All applicable terms, including interest rate and repayment details, will be disclosed to the student prior to entering into any financing agreement and will remain fixed for the duration of the repayment period. Institutional payment plans are separate from third-party financing options. Students may also choose to use external lenders, which are governed by their own terms and disclosures. Students who elect to use a payment plan must remain current with all scheduled payments to continue enrollment and participate in courses, clinical rotations, or graduation activities.

SECTION 4: STUDENT SERVICES

New Student Orientation

To support students, United Nursing College offers multiple services, including orientation to programs. During orientation sessions, students will be walked through each facet of the institution's academic community. Students will review their chosen program, schedule, and the facilities and resources available. Distance and hybrid education students will complete their orientation online through their learning management system. Traditional education students will complete their orientation in person on campus.

ADA Services and Accommodations

United Nursing College is committed to providing equal access to education for all individuals. We do not discriminate in admission or access to our programs on the basis of age, race, color, sex, disability, religion, sexual orientation, or national origin. The college complies fully with Section 504 of the Rehabilitation Act of 1973 and Title III of the Americans with Disabilities Act (ADA) of 1990.

Students with documented disabilities may request academic accommodations by submitting a formal request to the institution's ADA/Section 504 Coordinator, Dr. Adam E. Rowland. The coordinator will work collaboratively with students to determine the availability and effectiveness of reasonable accommodations. While instructors need to be aware of accommodations that affect their classes, they are not involved in reviewing documentation or determining eligibility. The ADA Coordinator—not the instructor—is solely responsible for reviewing documentation, determining eligibility, and communicating directly with faculty about implementation.

Accommodation Request Procedure

- **Submit the Request Form**

Complete and submit the Disability Accommodation Request Form to the ADA/Section 504 Coordinator using one of the following means:

- In person
- Fax to 951.574.4196
- Email accommodations@uunursing.com
- Student-submitted copies (including photocopies or digital images) will not be accepted.

- **Documentation Requirements**

- The form must be completed by a licensed physician, licensed psychologist, educational evaluator, or other professionals qualified to assess the student's condition.
- A signed letter from a physician may be accepted if it includes specific, clear accommodation recommendations and a justification (diagnosis) for the recommended supports.

- **Submission Timeline**

All documentation must be submitted at least seven (7) days before the accommodation is needed.

- **Response Timeline**

The ADA/Section 504 Coordinator will review and respond to accommodation requests within three (3) business days of receiving the completed form.

The coordinator will also notify the student and relevant instructor(s) within this timeframe.

Appeals, Reconsideration, and External Appeal Rights

If a student wishes to request reconsideration of the decision:

- Submit a written appeal to the Dean of Educational Services (DES), Dean of Nursing, or Director of Nursing within one (1) week of receiving the notice from the coordinator.
- Include a statement outlining the reason for the appeal and any additional relevant information.
- Students may file a complaint with the U.S. Department of Education's Office for Civil Rights (OCR) if they believe their request was improperly handled or denied.

Implementation and Opt-Out

- Once approved, all recommended accommodations must be provided in full; students may not select only certain accommodations.
- If a student chooses to decline support, they must complete and sign an official Opt-Out Form.
- To request future accommodations after opting out, a new Disability Accommodation Request Form with updated documentation must be submitted.

Academic Advising

Students can request one-on-one advising with a faculty advisor or Dean of Educational Services (DES) to discuss academic or personal issues at any time.

Library

The United Nursing College library is designed to support the students in each of the programs offered. Resources will enable students to pursue inquiry searches, documentation, and assignments connected with their program of study. The following library content includes but is not limited to:

- Staff member stationed at the library's front desk during school hours of operation
- Distraction-free testing accommodations for exams in partitioned student computer stations
- Program textbooks for students to use while on campus
- Internet access
- e-books and online resources
- Access to the programs' Learning Management System (LMS) - Canvas
- Supplemental learning materials:
 - Access to electronic periodicals
 - Computer-based training modules
- The DES is available via phone and email for assistance with study skills, time management, and test-taking strategies.
- Disability accommodations

Placement Services

United Nursing College prepares students for career success beginning in their final semester with resume writing workshops, mock interviews, and personalized letters of recommendation, highlighting individual achievements, extracurricular work, and community involvement. The College maintains strong relationships with local healthcare employers—including hospitals, clinics, and long-term care facilities—to expand networking and job placement opportunities.

Graduates receive ongoing support through individualized career advising, including direct connections to employment opportunities at United Medical Doctors and United Surgery Centers, a partnership made possible through the leadership of CEO Dr. John Hong.

Pregnancy

- Students may be exposed to infectious diseases and chemicals in the clinical setting. This has the potential to harm a growing fetus. Additionally, there are physical and mental requirements (see Supplemental Medical Guidelines) to be considered. Please consider discussing this with your instructor.
- A pregnant student may remain active in the nursing program if they can meet the weekly laboratory objectives and the attendance record remains satisfactory. A pregnant student is expected to meet the same objectives as all other students in theory, clinical, or practicum.

Antepartum-Recommendations

- The student has the responsibility to notify the clinical instructor as soon as pregnancy is determined, if accommodations are needed, along with any other restrictions from the physician, as some clinical experiences may need to be modified for her safety.
- The student will adhere to the Attendance and Readmission Policies of the United Nursing College. Special readmission is not granted.
- The student has the responsibility to notify both the Director of Nursing and the clinical instructor if problems arise that could limit the student's ability to meet clinical objectives safely.
- If the student requests a leave of absence during the pregnancy, the student must schedule an exit interview with the Director of Nursing and request a formal leave of absence in writing.
- At the end of the leave of absence, the student can re-enter the nursing program on a space-available basis.
- The student will be required to follow the re-entry process.
- Please refer to the pamphlet from the US Department of Education available online, "[Supporting the Academic Success of Pregnant and Parenting Students.](#)"

Student Housing

The United Nursing College does not offer student housing services and assumes no responsibility to find or assist a student in finding housing. The Institution does not have dormitory facilities under its control. There are several apartment complexes located within 5 miles of the campus with rental pricing ranging from \$1,800-2,500 monthly. Other housing options can be located at www.rentals.com.

Student Life

United Nursing College is committed to facilitating a balanced educational experience, recognizing the need for holism in student life and learning. The institution supports opportunities for students to enhance personal, professional, and community growth. The institution encourages students to take part in institution and community-sponsored events to foster growth. Students in online programs are also encouraged to engage in community service activities in the area in which they reside.

Tutoring Services

United Nursing College's programs are rigorous and designed to challenge. Occasionally, students may need additional help outside of the classroom. Students may request individual tutoring by their instructors during office hours or other scheduled times. The DES is also available by appointment to assist with study skills, time management, and test-taking strategies.

SECTION 5: STUDENT RIGHTS AND RESPONSIBILITIES

Leave-of-Absence Policy

Purpose: A Leave-of-Absence policy sets clear guidelines for how long a student can be absent, the documentation needed and the process for requesting and approving the leave. This helps avoid confusion and ensures fairness in the decision-making process.

Policy: Students may request a Leave-Of-Absence (LOA) while enrolled in any program at United Nursing College. Students must refer to the Attendance Policy to determine the maximum length of time approved for the program enrolled. An approved Leave of Absence will be granted when the absence is emergent or unforeseen.

Procedure: To request a LOA, for medical reasons, the student needs to be in good standing and passing their course with at least 70% at the time of request. A Leave of Absence Request Form must be completed, signed, and submitted to the Operations Manager or designee.

- The request must include the extenuating circumstances, supporting documentation, and duration of the leave being requested.
- For an LOA to be finalized, all required parties (Director of Nursing or designee and professor) must approve the request.
 - It is recommended that students continue to attend their courses while awaiting approval. Students seeking to withdraw from courses during any current term will be subject to the college course withdrawal policies.
 - Medical leaves will be evaluated on a case-by-case basis by the administrative team and UNC's accommodation policy will be referenced
- Students may take a maximum of 180 days of leave.
 - If a student does not return from a LOA within the specified timeframe and no prior arrangements have been made to extend the leave, then the student will be withdrawn from the program.
- The withdrawal date for an approved LOA is the date that the student failed to return from leave as determined by the institution's records.
 - Examples of acceptable reasons, with official supporting documentation, for an LOA are as follows (this list is not intended to be exhaustive):
 - Military Duty
 - Death in the immediate family
 - Maternity and paternity leave
 - Serious illness and care requirements for an immediate family
 - "Medically recommended" * with a professional provider note (physician, physician's assistant, or nurse practitioner)

**Students applying for readmission after an approved LOA will be placed on seat availability and is subject to the tuition and fees in place at the time of readmission.*

Satisfactory Academic Progress (SAP) ADN Program

Policy: All students must maintain Satisfactory Academic Progress (SAP) toward completion of their program of study in accordance with the qualitative and quantitative standards outlined in this policy. This policy applies to all students regardless of the source of tuition payment and is applied consistently to determine academic standing and eligibility to continue in the program.

SAP Evaluation Periods

Satisfactory Academic Progress (SAP) is formally evaluated at the end of each academic semester. Each semester serves as a single SAP evaluation period, regardless of the number of courses completed during that period. Students must meet both qualitative and quantitative SAP standards at each evaluation period. Although academic performance is monitored throughout the semester, formal SAP determinations occur only at the conclusion of the evaluation period.

SAP Process, Monitoring, and Checkpoints

Students are assigned one of the following Satisfactory Academic Progress statuses under the directive of the institution's Registrar:

- **Good Academic Standing** - The student meets both the qualitative and quantitative SAP standards.
- **Academic Warning** - The student did not meet Satisfactory Academic Progress (SAP) standards at the most recent evaluation period and is placed on probation for the next evaluation period.
- **Academic Probation** - The student did not meet Satisfactory Academic Progress (SAP) standards at the end of the Academic Warning period and is permitted to continue for one additional evaluation period under Academic Probation status.

During the Academic Warning and Academic Probation periods, students are notified in writing of their SAP status, receive academic counseling, and may be required to complete remediation and/or academic support activities designed to assist them in regaining Satisfactory Academic Progress. If the student meets both the qualitative and quantitative SAP standards at the end of the evaluation period, the student will return to Good Academic Standing. Students who do not regain Satisfactory Academic Progress at the end of the Academic Probation period will be dismissed from the program.

Qualitative Standard - Academic Performance

Students must maintain a minimum cumulative grade point average (CGPA) of 2.0 (equivalent to 70%) to meet the qualitative standard of Satisfactory Academic Progress (SAP).

Quantitative Standard - Pace of Completion

Pace of completion is calculated by dividing the number of credits successfully completed by the total number of credits attempted. Attempted credits include all courses in which a student remains enrolled after the institution's add/drop period, including courses with grades of F, W, I, and repeated courses. Students must successfully complete at least 67% of all attempted credits to maintain Satisfactory Academic Progress. The completion rate is calculated by dividing the total number of credits successfully completed by the total number of credits attempted.

Credits attempted include all courses in which a student is enrolled beyond the add/drop period, including withdrawals and incomplete grades, as defined by institutional policy. Credits are considered successfully completed when a student earns a passing grade of 70% or higher in a course in accordance with the institution's Grading and Academic Progression Policy. Transfer credits accepted by the institution are also counted as successfully completed credits for purposes of pace of completion. Courses with grades below 70%, withdrawals, and incompletes are considered attempted but not successfully completed for purposes of Satisfactory Academic Progress. This pace requirement ensures that students are progressing through the program at a rate that allows completion within the maximum timeframe permitted by the institution.

Maximum Timeframe Allowed

Students must complete the program within 150% of the published program length, measured in attempted credits. If at any point it is determined that a student cannot complete the program within the maximum allowable timeframe, the student will no longer meet Satisfactory Academic Progress (SAP) requirements and will be dismissed from the program.

Leave of Absence (LOA)

Students granted an approved Leave of Absence must comply with institutional policy. Time spent on an approved Leave of Absence will not be included in the calculation of the 150% maximum timeframe. SAP status determinations are based on the results of each SAP evaluation period.

Appeal of Dismissal for Failure to Meet Satisfactory Academic Progress (SAP)

Students who are dismissed for failure to maintain Satisfactory Academic Progress (SAP) may submit a written appeal based on documented extenuating circumstances. Extenuating circumstances may include, but are not limited to, serious illness, hospitalization, extreme family emergency, or death in the family. The appeal must include:

- A clear statement of the grounds for reconsideration
- A description of the circumstances that led to the dismissal
- An explanation of what has changed that will allow the student to meet program requirements moving forward
- Supporting documentation

Appeals will be reviewed by the Director of Nursing or designee within five business days of receipt. Students will be notified in writing of the appeal decision. Students whose appeal is approved will be permitted to continue enrollment and will be placed on SAP Probation for one evaluation period. As a condition of approval, students may be required to complete remediation and/or academic support activities. If the appeal is denied, the dismissal will remain in effect. Additional details regarding the appeal process are outlined in the Dismissal and Appeal Policy.

Readmission Following SAP Dismissal

Students who are dismissed for failure to meet Satisfactory Academic Progress (SAP) may apply for readmission to the program. Readmission is not guaranteed and is subject to demonstration of readiness for academic success, compliance with institutional policies, and program space availability. Additional requirements and procedures for readmission are outlined in the Readmission Policy.

Treatment of Grades and Credits in SAP Calculations

All courses attempted are included in the evaluation of Satisfactory Academic Progress (SAP), unless otherwise noted below.

- Courses in which a student earns a passing grade, as defined by the program grading policy (minimum 70%), are counted as both attempted and successfully completed credits for purposes of Satisfactory Academic Progress (SAP). These courses are also included in the calculation of the cumulative grade point average (CGPA).
- Failing grades (F) are counted as attempted credits, are included in the CGPA, and do not count as earned credits.
- Withdrawals (W) are counted as attempted credits but are not included in the CGPA and do not count as earned credits.
- Incompletes (I) are counted as attempted credits until a final grade is assigned.
- Transfer credits (TC) are counted as earned credits but are not included in the CGPA.
- Repeated courses are counted as attempted credits each time the course is taken. In accordance with institutional grading practices, the highest grade earned is included in the CGPA and the lower grade is excluded.

Grades such as audit, pass/no pass, credit/no credit, and other non-letter grades are not included in the CGPA calculation and are treated in accordance with institutional grading policies.

Relationship to Program Progression Requirements

The Satisfactory Academic Progress (SAP) policy establishes the institution's minimum academic standards related to cumulative grade point average (CGPA) pace of completion, and maximum timeframe for program completion. The ADN program also maintains course completion and progression requirements that determine whether a student may advance in the curriculum. Students must meet both SAP standards and program progression requirements to remain enrolled.

Failure to meet program progression requirements, including minimum course grading standards, as outlined in the Grading and Academic Progression Policy, may result in dismissal from the program regardless of the student's SAP status.

Satisfactory Academic Progress (SAP) RN to BSN Program

Policy: All students must maintain Satisfactory Academic Progress (SAP) toward completion of their program of study in accordance with the qualitative and quantitative standards outlined in this policy. This policy applies to all students regardless of the source of tuition payment and is applied consistently to determine academic standing and eligibility to continue in the program.

SAP Evaluation Periods

Satisfactory Academic Progress (SAP) is formally evaluated at the end of each academic quarter. Each quarter serves as a single SAP evaluation period, regardless of the number of courses completed during that period.

Students must meet both qualitative and quantitative SAP standards at each evaluation period. Although academic performance is monitored throughout the quarter, formal SAP determinations occur only at the conclusion of the evaluation period.

SAP Process, Monitoring, and Checkpoints

Students are assigned one of the following Satisfactory Academic Progress statuses under the directive of the institution's registrar:

- **Good Academic Standing** - The student meets both the qualitative and quantitative SAP standards.
- **Academic Warning** - The student did not meet Satisfactory Academic Progress (SAP) standards at the most recent evaluation period and is placed on probation for the next evaluation period.
- **Academic Probation** - The student did not meet Satisfactory Academic Progress (SAP) standards at the end of the Academic Warning period and is permitted to continue for one additional evaluation period under probation status.

During the Academic Warning and Academic Probation periods, students are notified in writing of their SAP status, receive academic counseling, and may be required to complete remediation and/or academic support activities designed to assist them in regaining Satisfactory Academic Progress.

Academic support is provided at the program level. The Program Director will notify appropriate faculty, and students will be referred for support, which may include faculty communication, advising, remediation, and other resources designed to assist in improving academic performance.

If the student meets both the qualitative and quantitative SAP standards at the end of the evaluation period, the student will return to Good Academic Standing. Students who do not regain Satisfactory Academic Progress at the end of the Academic Probation period will be dismissed from the institution.

Qualitative Standard - Academic Performance

Students must maintain a minimum cumulative grade point average (CGPA) of **2.0 (equivalent to 70%)** to meet the qualitative standard of Satisfactory Academic Progress (SAP).

Quantitative Standard - Pace of Completion

Pace of completion is calculated by dividing the number of credits successfully completed by the total number of credits attempted. Attempted credits include all courses in which a student remains enrolled after the institution's add/drop period, including courses with grades of F, W, I, and repeated courses.

Students must successfully complete at least 67% of all attempted credits to maintain Satisfactory Academic Progress. The completion rate is calculated by dividing the total number of credits successfully completed by the total number of credits attempted. Credits are considered successfully completed when a student earns a passing grade of 70% or higher in a course in accordance with the institution's grading policy. Transfer credits accepted by the institution are also counted as successfully completed credits for purposes of pace of completion.

Courses with grades below 70%, withdrawals, and incompletes are considered attempted but not successfully completed for purposes of Satisfactory Academic Progress. This pace requirement ensures that students are progressing through the program at a rate that allows completion within the maximum timeframe permitted by the institution.

Maximum Timeframe Allowed

Students must complete the program within 150% of the published program length, measured in attempted credits. If at any point it is determined that a student cannot complete the program within the maximum allowable timeframe, the student will no longer meet Satisfactory Academic Progress (SAP) requirements and will be dismissed from the program.

Leave of Absence (LOA)

Students granted an approved Leave of Absence must comply with institutional policy. Time spent on an approved Leave of Absence will not be included in the calculation of the 150% maximum timeframe. SAP status determinations are based on the results of each SAP evaluation period.

Appeal of Dismissal for Failure to Meet Satisfactory Academic Progress (SAP)

Students who are dismissed for failure to maintain Satisfactory Academic Progress (SAP) may submit a written appeal based on documented extenuating circumstances. Extenuating circumstances may include, but are not limited to, serious illness, hospitalization, extreme family emergency, or death in the family.

The appeal must include:

- A clear statement of the grounds for reconsideration
- A description of the circumstances that led to the dismissal
- An explanation of what has changed that will allow the student to meet program requirements moving forward
- Supporting documentation

Appeals will be reviewed by the Director of Nursing or designee within five business days of receipt. Students will be notified in writing of the appeal decision.

Students whose appeal is approved will be permitted to continue enrollment and will be placed on SAP Probation for one evaluation period. As a condition of approval, students may be required to complete remediation and/or academic support activities. If the appeal is denied, the dismissal will remain in effect. Additional details regarding the appeal process are outlined in the Dismissal and Appeal Policy.

Readmission Following SAP Dismissal

Students who are dismissed for failure to meet Satisfactory Academic Progress (SAP) may apply for readmission to the program. Readmission is not guaranteed and is subject to demonstration of readiness for academic success, compliance with institutional policies, and program space availability. Additional requirements and procedures for readmission are outlined in the Readmission Policy.

Treatment of Grades and Credits in SAP Calculations

All courses attempted are included in the evaluation of Satisfactory Academic Progress (SAP), unless otherwise noted below.

- Passing grades, as defined by the program grading policy (minimum 70%), are counted as both attempted and earned credits and are included in the cumulative grade point average (CGPA).
- Failing grades (F) are counted as attempted credits, are included in the CGPA, and do not count as earned credits.
- Withdrawals (W) are counted as attempted credits but are not included in the CGPA and do not count as earned credits.
- Incompletes (I) are counted as attempted credits until a final grade is assigned.
- Transfer credits (TC) are counted as earned credits but are not included in the CGPA.

- Repeated courses are counted as attempted credits each time the course is taken. In accordance with institutional grading practices, the highest grade earned is included in the CGPA and the lower grade is excluded.

Grades such as audit, pass/no pass, credit/no credit, and other non-letter grades are not included in the CGPA calculation and are treated in accordance with institutional grading policies.

Relationship to Program Progression Requirements

The Satisfactory Academic Progress (SAP) policy establishes the institution's minimum academic standards related to cumulative grade point average (CGPA) pace of completion, and maximum timeframe for program completion.

The ADN program also maintains course completion and progression requirements that determine whether a student may advance in the curriculum. Students must meet both SAP standards and program progression requirements to remain enrolled.

Failure to meet program progression requirements, including minimum course grading standards, as outlined in the Grading and Academic Progression Policy, may result in dismissal from the program regardless of the student's SAP status.

State of California Residency Requirement and Student Physical Location Policy

United Nursing College programs are offered only to residents of the State of California. Prior to enrollment and as part of the admissions process, the College requires verification and attestation of the student's physical address and location of record.

The institution determines the student's physical location at the time of enrollment using the address provided on the student's application and confirmed on the Enrollment Agreement. This address becomes the student's official address of record and is maintained in the institution's student information system. By signing the Enrollment Agreement, the student attests that the address provided on their application represents their current physical location.

Students are responsible for notifying the institution of any change to their physical address during enrollment. Address updates must be submitted through the Online Student Hub by following the process below:

- Log into any Canvas course and select Student Hub
- Click the link for the "Change of Address" form
- Submit the completed form for review

Once the request has been processed, the student will receive a confirmation email from the Registrar indicating that the address update has been approved.

The institution maintains the student's physical address of record within the student information system and uses this information to ensure compliance with applicable state authorization and professional licensure disclosure requirements.

If a student relocates outside the State of California, the student must notify the institution as soon as possible, but no later than ten (10) calendar days after the change occurs. A change in physical location may affect the student's ability to remain enrolled in the program and may impact the student's eligibility for professional licensure in states outside California.

Upon notification of a student's relocation, the institution will review whether the student's program meets the educational requirements for licensure or credentialing in the student's new state of residence. If the institution determines that completion of the program does not meet the educational requirements for licensure in that state, the institution will provide direct written notice to the student within fourteen (14) calendar days of making that determination. This notification will inform the student that completion of the program may not lead to licensure in the student's new state of residence and may impact the student's ability to continue enrollment.

Student Grievance and Appeal Policy

The purpose of this policy is to provide students currently enrolled in the nursing program with a fair, timely, and equitable process for addressing concerns that affect their educational experience. United Nursing College (UNC) is committed to resolving student grievances promptly, professionally, and without retaliation.

Definition of a Grievance: A grievance is a formal, written complaint by a student currently enrolled in the nursing program regarding an alleged violation, misapplication, or perceived unfairness of institutional policies, procedures, or practices that directly affect the student's educational experience.

Students who have been dismissed from the program should refer to the Dismissal and Appeal Policy, which outlines the applicable appeal process for dismissal decisions.

Informal Resolution

- A formal grievance must be submitted in writing to the Director of Nursing (or designee).
- The grievance must include a clear description of the issue, relevant facts and dates, supporting documentation, if applicable, and the specific resolution sought.
- Grievances must be filed within ten (10) business days of the event giving rise to the concern, unless extenuating circumstances are documented and accepted by the College.
- Students are encouraged to attempt to resolve concerns informally by discussing the matter directly with the individual(s) involved when appropriate. If the concern is not resolved through informal means, or if informal resolution is not appropriate, students may proceed with a formal grievance.

Filing a Formal Grievance

- A formal grievance must be submitted in writing to the Director of Nursing (or designee).
- The grievance should include a description of the issue, relevant facts, supporting documentation, and the specific resolution sought.
- Grievances should be filed within ten (10) business days of the event giving rise to the concern.

Review and Decision

- The Director of Nursing, or designee, will review the grievance, gather information, and may meet with the student and/or involved parties as part of the review process.
- A written decision will be provided to the student via official college email within ten (10) business days of receipt of the formal grievance.

Appeal of Grievance Decision

- If the student is not satisfied with the decision, they may submit a written appeal to the Dean of Nursing (or designee) within three (3) business days of receiving the decision.
- The Dean of Nursing, or designee, will review the matter and issue a final written decision within five (5) business days of receipt of the appeal.
- The decision of the Dean of Nursing (or designee) is final.

Records and Confidentiality

- All records of grievances and their resolutions will be maintained in the student's academic file in accordance with institutional record-retention policies.
- All grievances will be handled with appropriate confidentiality and professionalism, consistent with applicable privacy laws and institutional policies.

Any questions a student may have regarding this catalog that have not been satisfactorily answered by the institution may be directed to the Bureau for Private Postsecondary Education at 1747 N. Market Blvd. Ste 225 Sacramento, CA 95834 or P.O. Box 980818, West Sacramento, CA 95798-0818, or www.bppe.ca.gov, or by phone (888) 370-7589 or (916) 574-8900, or by fax (916) 263-1897 or (916) 263-1897.

A student or any member of the public may file a complaint about this institution with the Bureau for Private Postsecondary Education by calling (888) 370-7589 or by completing a complaint form, which can be obtained on the bureau's internet Web site www.bppe.ca.gov

If a student's complaint cannot be resolved after exhausting the institution's grievance procedure, the student may file a complaint with the California Board of Registered Nursing (BRN). The BRN is the state approval agency for nursing programs in California and reviews complaints related to program compliance with educational and licensure requirements.

California Board of Registered Nursing (BRN)

1747 North Market Blvd., Suite 150
Sacramento, CA 95834
Phone: (916) 322-3350
Website: www.rn.ca.gov

SECTION 6: ACADEMIC RULES, REGULATIONS, AND STANDARDS

All institutional and program-specific policies and procedures are fully detailed in the Student Handbook. The Handbook serves as the official source for current policies governing student conduct, academic standards, clinical requirements, and general college operations. Once formally enrolled, students are responsible for reviewing and adhering to all policies outlined therein.

Grading Information

Course Grading Scale

A	100-94%
A-	93.99-90%
B+	89.99-87%
B	86.99-84%
B-	83.99-80%
C+	79.99-77%
C	76.99-74%
C-	73.99-70%

(70% required for progression)

ADN % of grade weight

*Assessment Type	Weight
Exams	60%
Assignments	10%
Clinical	10%
Knowledge Checks	20%

** This is an example from a course in the ADN program with specific grading components and weighting which is defined in each course syllabus.*

Sample BSN % of grade weight

*Assessment Type	Weight
Quizzes	10%
Assignments	30%
Discussions	20%
Performance Task	40%

** This is an example from a course in the BSN program with specific grading components and weighting which is defined in each course syllabus and will vary by course.*

Grade Point Average (GPA) Grading Scheme

Grades included in calculation of Grade Point Average (GPA)

Grade		Quality Points per Unit
A	=	4.00
A-	=	3.67
B+	=	3.33
B	=	3.00
B-	=	2.67
C+	=	2.33
C	=	2.00
C-	=	1.67
D+	=	1.33
D	=	1.00
F	=	0.00

Grades excluded from calculation of Grade Point Average

AU	- Audit
AUX	- Audit (Non-attendance)
CR	- Credit
EQ	- Equivalent Credit
I	- Incomplete
IP	- In Progress (Graduate only)
NC	- No Credit
NP	- No Pass
P	- Pass
NR/NG	- No Grade Reported
PE	- Pass (Credit for Prior Experience)
TC	- Transfer Credit
W	- Withdrawal

COMPUTATION OF AVERAGE

A student's grade point average is determined by dividing total quality/grade points by calculable units (units taken toward GPA). For example: 60 grade points ÷ 24 calculable units = 2.50 GPA.

The cumulative grade point average (CGPA) includes only courses taken at the institution that are assigned letter grades. Transfer credit, including general education coursework completed at other institutions, is not included in the CGPA.

Final course grades are determined using the percentage-based course grading scale and are converted to the 4.0 grade point average (GPA) scale for calculation of the cumulative GPA, as reflected on the official academic transcript.

Credit and Clock Hour Definition

Credit Hour Definition (Carnegie Unit Standard)

A *credit hour* is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that reasonably approximates:

- One hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately 15-16 weeks for one semester or trimester hour of credit, or 10-12 weeks for one quarter hour of credit; or
- An equivalent amount of work for other academic activities such as laboratory work, clinical experience, practicum, or other academic work leading to the award of credit hours.

This institution uses the Carnegie Unit as the basis for determining credit hour equivalencies.

Academic Progression: ADN

Student performance in the ADN program is evaluated through examinations, assignments, clinical evaluations, and other learning activities aligned with course and program outcomes.

To pass a course, students must:

- Achieve a minimum final course grade of 70%
- Achieve a minimum examination average of 70%
- Successfully complete all required theory, laboratory, and clinical components

Unsafe clinical performance may result in a failing course grade. Students are permitted up to three attempts to pass required medication dosage calculation examinations and skills validations. Failure to do so results in course failure.

Progression in the program is based on successful completion of required courses. In limited circumstances, a student may be permitted to continue in or progress within the program when course sequencing allows; however, all failed courses must be repeated and successfully completed prior to graduation.

Students who fail a course may be eligible to repeat the course subject to program policies and seat availability. The highest grade earned is used in GPA calculations; however, all attempts remain part of the academic record. Students who accumulate three nursing course failures will be dismissed from the program.

The program provides academic support and remediation for students at risk of not meeting course requirements. Students may be required to complete assigned remediation as a condition of continued progression. Students must meet both program progression requirements and institutional Satisfactory Academic Progress (SAP) standards. Meeting SAP standards does not override program-specific grading or progression requirements.

Academic Progression: RN-BSN

Student performance in the RN to BSN program is evaluated through examinations, written assignments, discussions, projects, presentations, and other learning activities aligned with course and program outcomes. Specific grading components and weighting are defined in each course syllabus.

The RN to BSN program is delivered in 10-week courses within a structured academic track. Progression is based on successful completion of each course in the assigned track. A minimum grade of 70% is required to pass each course.

Students who do not pass a course may continue in the program in accordance with the Satisfactory Academic Progress (SAP) policy but must repeat the course to meet graduation requirements. The highest grade earned is used in cumulative GPA calculations; however, all attempts remain part of the academic record.

The program provides academic support within the online learning environment. Students demonstrating risk of not meeting course requirements may be notified and provided with guidance, faculty support, and access to academic resources.

Students must meet both program progression requirements and institutional Satisfactory Academic Progress (SAP) standards to remain enrolled. Failure to meet SAP standards may result in Academic Warning, Academic Probation, or dismissal in accordance with institutional policy.

Attendance and Tardy Policy

Purpose: Consistent punctuality and class attendance demonstrate professionalism and are essential for academic success and safe nursing practice. This policy supports fairness, accountability, and compliance with regulatory and professional standards.

Policy: Students are expected to be on time and prepared for all lectures, labs, simulations, and clinical shifts. Specific attendance and punctuality requirements for each instructional setting are outlined below.

General Attendance

- All missed instructional days are recorded as absences.
- Students may not exceed a total of three (3) absences per semester, unless extenuating circumstances are approved administratively.
- No more than one (1) absence may be a clinical absence.
- Exceeding the maximum number of allowed absences may result in course failure and/or dismissal, in accordance with institutional policy.
- Students who leave early will be marked absent, regardless of the amount of time missed, unless an extenuating circumstance has been approved by administration.

Clinical Orientations

- Clinical orientations are mandatory.
- If a clinical site permits a make-up orientation, the missed orientation will count as the student's one allowed clinical absence, and all site-required tasks must be completed before the student may attend clinical.
- If a clinical site does not permit a make-up orientation, the student will not be permitted to attend clinical at that site. If no alternative clinical placement is available, the student may be dismissed from the course.

General Tardiness

- Students must be physically present in the designated area and ready to begin at the scheduled start time, including returning promptly from scheduled breaks.
- Arriving early to class and clinical shifts is encouraged and demonstrates professional behavior.
- Students who are tardy to lecture, lab, or simulation three (3) times per semester will be placed on a Student Success Plan (SSP) by the course instructor.
- Due to patient safety and clinical site requirements, tardiness in clinical settings will result in more immediate and progressive disciplinary action than tardiness in non-clinical settings.
 - See the Clinical section below for additional requirements.

Lecture & Lab

- Students who arrive late to lecture or lab are marked tardy.
- The student may join the class; however, because late entry can be disruptive, they are expected to enter quietly and limit interruptions.

Simulation

- Students arriving late to simulation are marked tardy.
- The Simulation Coordinator will determine whether the student may participate based on potential disruption to the learning environment and the student's ability to meet simulation objectives, given the time of arrival.

If the student is permitted to participate:

- The student will be assigned a Simulation Tardy assignment.
- Completion of the assignment does not remove the recorded tardy.

If the student is not permitted to participate:

- A simulation absence will be recorded.
- The student will be sent home and assigned both a Tardy assignment and a Simulation Absence assignment.
- The Simulation Coordinator is responsible for assigning and grading all required make-up work.
- The Simulation Coordinator will notify the primary course instructor of the tardiness or absence by email within 24 hours, copying the student, the Director of Simulation, and the Director of Nursing.

Clinical

- Students who arrive late to clinical will be marked tardy.
- The clinical instructor, in consultation with the clinical site as appropriate, will determine whether the student can be safely assigned patients.

If the student is permitted to remain in clinical:

- The student will be assigned a Clinical Tardy assignment.
- Completion of the assignment does not remove the recorded tardy.
- If a student arrives more than 30 minutes late, a Clinical Absence assignment will be required.
- Shadowing a nurse or clinical instructor is not permitted, as this does not meet clinical objectives.

If the student is not permitted to remain in clinical:

- The student will be sent home, a clinical absence will be recorded, and the student will be assigned both a Clinical Tardy assignment and a Clinical Absence assignment.
- The clinical instructor must notify the primary course instructor of the tardiness or absence by email within 24 hours, copying the student and the Director of Nursing.
- If the student could not be safely placed with a patient assignment, the clinical instructor must include the specific reason in the email notification.
- The primary course instructor is responsible for assigning and grading all required make-up work.

No Call / No Show - Clinical

- A no call/no show is defined as failure to notify the instructor at least 30 minutes prior to the start of a clinical shift, or as soon as reasonably possible if an unexpected event occurs within 30 minutes of the start time.
- Students must directly notify the instructor of any anticipated late arrival or absence.
- A no call/no show is a serious infraction and will result in immediate probation, in accordance with the Student Discipline Policy.
- The clinical instructor will notify the primary course instructor and the Director of Nursing by email as soon as possible, and no later than 24 hours after the incident.
- All other applicable attendance, tardy, and discipline policies will be followed.

Assigned Make-Up Assignments

Make-up assignments will be comparable to the instructional time missed in rigor, content, and time requirements. Completion of all assigned make-up work is required. Late submission of make-up assignments will be graded in accordance with the course's late work policy.

Extenuating Circumstances

With administrative approval, the institution will review and consider extenuating circumstances on a case-by-case basis. Disciplinary actions may be modified when approved extenuating circumstances exist. Faculty who become aware of a student with potential extenuating circumstances will initiate a request to administration on the student's behalf. Extenuating circumstances may include, but are not limited to, documented illness or injury, hospitalization, bereavement, military service, mandated court orders, or other significant events beyond the student's control. Appropriate documentation is required.

Disciplinary Actions

Maximum Allowed Absences: The lead course instructor will monitor all absences. If a student reaches the maximum number of allowed absences in a course, the lead course instructor will notify the Director of Nursing to issue a Notice of Maximum Absences. The Director of Nursing (or designee) will meet with the student to discuss the situation and issue a notice of maximum absences.

- The student will be required to meet with the Director of Nursing (or designee) to review the situation and discuss next steps.
- Any additional absence after issuance of a Notice of Maximum Absences may result in course failure and/or dismissal from the program, in accordance with the Student Discipline Policy.

No Call / No Show: If the student is marked as a no call/no show to clinical

- The clinical instructor will notify the primary course instructor by email as soon as possible, but no later than 24 hours after the incident.
- The primary course instructor will notify the Director of Nursing (or designee) by email as soon as possible, but no later than 24 hours after receipt of the notification.
- The Director of Nursing (or designee) will meet with the student and place the student on probation, in accordance with the Student Discipline Policy.

Tardiness: Lecture, Lab, and Simulation

Habitual tardiness: A third tardy in any combination of lecture, lab, or simulation during a semester.

Action: Primary course instructor implements a Student Success Plan (SSP).

Tardiness: Clinical Specific

- First clinical tardy: Verbal warning by the clinical instructor, with email documentation sent to the primary course instructor.
- Second clinical tardy: Primary course instructor implements a Student Success Plan (SSP).
- Third clinical tardy: Primary course instructor notifies the Director of Nursing by email; the Director of Nursing (or designee) meets with the student and places the student on probation.

Distance Education Response and Evaluation

United Nursing College faculty will respond to student coursework submissions in distance education as outlined in the course syllabus. Generally, the approximate turnaround/response time is as follows:

- Assignments: 1 week
- Quizzes: 1-2 days
- Email/Inbox: 1-2 days

Distance Education Course Attendance Policy

Students enrolled in an online course will have attendance monitored by participation in discussion board posts and assignments. Students will show attendance by submitting discussion board posts and assignments by the due date and time. Students who do not participate in an online course for one consecutive week, starting from the last date of attendance, may be dismissed. See "Add-Drop-Refund Policy for Distance Education" It is the student's responsibility to notify the instructor in advance of an absence or tardiness. If an emergency arises and the student cannot inform the instructor, the student is required to call the main phone line at 951-526-1033 and notify someone at the reception desk as soon as possible.

**Exceptions to the attendance policy are subject to faculty review on an individual basis.*

Dismissal and Appeals

United Nursing College (UNC) maintains academic, clinical, and professional standards to promote student success and protect public safety. The College reserves the right to dismiss a student from a course or program when these standards are not met.

Grounds for Dismissal

A student may be dismissed for reasons including, but not limited to:

- Failure to meet academic requirements or maintain Satisfactory Academic Progress (SAP)
- Unsafe, unprofessional, unethical, or dishonest conduct in the classroom, laboratory, simulation, or clinical setting
- Behavior that endangers patients, the public, faculty, or peers
- Violation of the Student Code of Conduct or program policies
- Failure to return from an approved Leave of Absence (LOA) within the required timeframe
- Noncompliance with institutional or program requirements

Dismissal decisions are based on documented evidence and applied consistently.

Safety and Evaluations

Students who demonstrate unsafe or incompetent clinical or laboratory practice may be immediately removed from the learning environment to protect patient and public safety. Results of objective evaluations, including examinations and skills assessments, are final except in cases of documented clerical or procedural error.

Notification and Appeal

Students dismissed from a course or program will receive written notice stating the reason for dismissal, the effective date, and appeal instructions. Students have the right to submit a written appeal within the specified timeframe. Appeals are reviewed by the appropriate institutional authority, and a written determination is issued. A final appeal may be submitted based on procedural error or new, relevant information. The final decision is not subject to further review.

Records and Financial Responsibility

All dismissal and appeal documentation is maintained in the student's academic record in accordance with regulatory requirements. Students dismissed after the applicable withdrawal or cancellation period are subject to the College's tuition and refund policies.

** This section provides a general overview of the College's dismissal and appeal standards. The complete Dismissal and Appeal Policy, including procedures and timelines, is published in the Student Handbook and governs in the event of any discrepancy.*

Recordkeeping

Under the direction of the Nursing Administration, the Operations Manager at United Nursing College will function as the Custodian of Records at the campus address:
35100 Makena Ave. Ste.202
Murrieta, CA 92563
951-526-1033

Student files will be stored securely:

- In a locked filing cabinet
- In a locked designated Records Room
- In a locked administrative building

Student Records are the property of United Nursing College. Student Records are maintained solely for the purposes of successfully implementing all programs offered at United Nursing College. The institution is committed to complying with all applicable laws, rules, and regulations governing the use and protection of Student Records, including the Family Educational Rights and Privacy Act (FERPA) and its implementing regulations, and applicable state laws and statutes governing Student Records. The institution is committed to implementing and maintaining this Student Records Privacy Statement and Security Plan which is designed to protect the security, confidentiality, and integrity of Student Records and protect against unauthorized access or other anticipated threats to those Student Records.

In connection with the Student Records Security Plan, the institution will implement administrative, technical, and physical safeguards designed to secure Student Records. These safeguards include technical and operational measures, such as firewalls, and passwords, as well as training, policies, and procedures to limit access to Student Records to authorized staff that have a legitimate need to access such data, who are under appropriate contractual obligations of confidentiality, data protection, and security.

If a parent or legal guardian of a student contacts United Nursing College with a request to review, modify, export, or delete Student Records, or if an agency, court, law enforcement, or other entity contacts us and requests access to Student Records, the institution will promptly direct the requesting individual or entity to contact the student with their request, and thereafter, the institution will use reasonable and good faith efforts to assist the student in fulfilling such requests, if and as directed by the student.

If the institution determines that an incident involving unauthorized access or use of Student Records has occurred, such occurrence will be subject to reporting under applicable federal or state law, shall take prompt and appropriate steps to mitigate the incident and/or further impact to the Student Records, provide notice of the incident to the affected student(s) promptly and without unreasonable delay as required under applicable law.

This Student Records Security Plan is effective as of February 18, 2022. The institution may update this Student Records Security Plan to reflect changes to privacy practices in accordance with changes in legislation or best practices.

All academic transcripts will be permanently maintained, regardless if the student does or does not complete the enrolled educational program, and will include the following:

- Course attempted and completed
- Grades earned by the student in each of the courses completed
- Degree and/or certificates granted and the date on which that degree or certificate was granted
- Courses and units on which the degree or certificate was based

United Nursing College will maintain a file for each student who enrolls in the institution. The file will be kept for a minimum of 5 years and shall contain all the following pertinent student records:

- Student name, address, email address, and telephone number
- Written records and transcripts of any formal education or training, testing, or experience that are relevant to the student's qualifications for admission to the institution or the institution's award of credit or acceptance of transfer credits including the following:
 - Verification of high school completion or equivalency or other documentation establishing the student's ability to do college level work
 - Records documenting units of credit earned at other institutions that have been accepted and applied by the institution as transfer credits toward the student's completion of the institution's program
 - Grades or findings from any examination of academic ability or educational achievement used for admission or college placement purposes
- All the documents evidencing a student's prior experiential learning upon which the institution and the faculty base the award of any credit
- Personal information regarding a student's age, gender, and ethnicity if that information has been voluntarily supplied by the student
- Copies of all documents signed by the student, including contracts, instruments of indebtedness, and documents relating to financial aid
- Records of the dates of enrollment and, if applicable, withdrawal from the institution, leaves of absence, and graduation; and
- Transcripts showing all the following

- The courses or other educational programs that were completed, or were attempted but not completed, and the dates of completion or withdrawal
- Credit awarded for prior experiential learning, including the course title for which credit was awarded and the amount of credit
- Credit for courses earned at other institutions
- Credit based on any examination of academic ability or educational achievement used for admission or college placement purposes
- The name, address, website address, and telephone number of the institution.
- A document showing the total amount of money received from or on behalf of the student and the date or dates on which the money was received;
- A document specifying the amount of a refund, including the amount refunded for tuition and the amount for other itemized charges, the method of calculating the refund, the date the refund was made, and the name and address of the person or entity to which the refund was sent
- Copies of any official advisory notices or warnings regarding the student's progress
- Complaints received from the student

Financial records will be maintained as separate locked files, in a separate filing cabinet, from student academic records. Financial records will be maintained in a locked records room and in a locked building.

Withdrawal and Failed Course Transcript Policy

At United Nursing College (UNC), we are committed to maintaining transparency regarding transcript notations for dropped, withdrawn, or failed courses. This policy outlines the guidelines for how these actions are recorded on student transcripts to ensure clarity for students, faculty, and administration. This policy ensures students have clear timelines for making enrollment decisions and understanding how these decisions affect their academic records.

Transcript Notations

1. Dropping a Course (No Transcript Notation)

Students may drop a course without any notation appearing on their transcript if they do so by 11:59 PM on the seventh day after the class start date. This applies uniformly across all course lengths:

- 16-week courses: Drop by Day 7 after class start
- 10-week courses: Drop by Day 7 after class start
- 8-week courses: Drop by Day 7 after class start
- 5-week courses: Drop by Day 7 after class start

2. Withdrawing from a Course ("W" grade on transcript):

Students who withdraw from a course after the drop period but before the designated withdrawal deadline will receive a grade of "W" on their transcript, indicating withdrawal without impact on GPA. The withdrawal period varies by course length:

- 16-week courses: Week 2 through end of Week 9
- 10-week courses: Week 2 through end of Week 5
- 8-week courses: Week 2 through end of Week 4
- 5-week courses: Week 2 through end of Week 3

3. Failing a Course ("F" grade on transcript):

Students who withdraw after the withdrawal deadline or do not successfully complete the course will receive an "F" grade on their transcript, indicating course failure, which will impact GPA. The failure periods are as follows:

- 16-week courses: After Week 9
- 10-week courses: After Week 5
- 8-week courses: After Week 4
- 5-week courses: After Week 3

To officially cancel or withdraw from a course, please see Cancellation, Withdrawal, and Failed Course Refund Policy and Procedure above.

Any student that does not provide official notification of their intent to withdraw and is absent for more than seven consecutive calendar days, fails to maintain satisfactory academic progress, fails to comply with the school's attendance and/or conduct policy, does not meet financial obligations to the school, or violates conditions mentioned in the School contractual agreement, will be subject to termination and considered to have unofficially withdrawn.

If the student has received federal student financial aid funds, the student is entitled to refund of monies not paid from federal student financial aid program funds.

The student who obtains a loan to pay for an educational program will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund.

The student who defaults on a federal or state loan, both of the following may occur:

- The federal or state government or a loan guarantee agency may take action against the student, including applying any income tax refund to which the person is entitled to reduce the balance owed to the loan.
- The student may not be eligible for any other federal student financial aid at another institution or other government financial assistance until the loan is repaid.

Tuition liability is divided by the number of terms in the program. Total tuition liability is limited to the term during which the student withdrew or was terminated, and any previous terms completed.

In the event a student decides to rescind his or her official notification to withdraw, the student must provide a signed and dated written statement indicating he/she is continuing his or her program of study and intends to complete the payment period. If the student subsequently fails to attend or ceases attendance without completing the payment period, the student's withdrawal date is the original date of notification of intent to withdraw.

SECTION 7: PROGRAMS AND CREDIT COURSES

Associate Degree in Nursing (ADN) Program

Associate Degree in Nursing Program Purpose and Description

The Associate Degree in Nursing (ADN) program at UNC is approved by the California Board of Registered Nursing and is a pre-licensure program consisting of four semesters of in-person didactic, laboratory, and clinical instruction. Required pre-requisites and general education courses are transferred from accredited schools. The curriculum covers fundamentals of nursing, medical-surgical, pediatrics, obstetrics, geriatrics, and behavioral health, focusing on cultural competence and ethical standards of care. This program guides students to develop the intellectual, analytical, and critical thinking abilities necessary to provide exceptional care to cross-diverse communities amidst a dynamic healthcare climate. Upon graduation, students will be prepared to apply for national licensure known as the NCLEX-RN®.

To practice as a Registered Nurse in California, you must be licensed by the California Board of Registered Nursing (BRN). The BRN mandates specific requirements to apply for licensure:

- 1.) Successfully complete educational requirements including all general education and nursing course requirements meeting all California requirements.
- 2.) Complete and pass a fingerprint criminal background check.
- 3.) Take and pass the National Council Licensing Examination (NCLEX-RN®).
The exam is computerized and given continuously 6 days a week. (New graduates are advised to take the exam soon after graduation because research has shown that there is a higher success rate for early test takers compared with those who wait several months.)

ADN Program Designation

The Associate Degree in Nursing (ADN) program is a pre-licensure program. Successful completion of this program is intended to qualify students to sit for the NCLEX-RN® examination and seek licensure as a Registered Nurse (RN) in the State of California.

Disclosure for Out-of-State Practice - ADN

The ADN program at UNC is designed to meet the educational requirements for professional nursing licensure in the State of California as mandated by the California Board of Registered Nursing (BRN). Student location is determined at the time of enrollment based on the student's physical address and is used to evaluate program eligibility in relation to state licensure requirements.

If you intend to pursue initial licensure in a state other than California upon completion of the ADN program, please be advised:

1. No Determination Made: UNC has not made a determination whether its ADN curriculum meets the specific educational requirements for licensure in any state or U.S. territory other than California.
2. Consultation Requirement: Requirements for licensure vary by state and are subject to change. Applicants and students intending to practice outside of California must consult the Board of Nursing (BON) in their intended state of practice to verify that the UNC curriculum meets that state's specific criteria.
3. NCLEX-RN and Compact States: While the NCLEX-RN is a national exam, clinical hour requirements and theory content vary. If you are interested in the Nurse Licensure Compact (NLC), you should verify how your California-based education aligns with your home state's residency requirements.
4. Relocation Warning: Please be advised that a change in your physical location (relocation to another state) while enrolled in the ADN program may impact your ability to meet licensure requirements in that new state.

Upon notification of the student's relocation, the institution will review whether the ADN program meets the educational requirements for licensure in that state. If the institution determines that completion of the program does not meet the educational requirements for licensure in the student's new state of residence, the institution will provide direct written notice to the student within fourteen (14) calendar days of making that determination. This notification will include information advising the student that completion of the program may not lead to licensure in that state.

Resources for Students

To find the contact information and specific requirements for a particular state, please visit the National Council of State Boards of Nursing (NCSBN) website:

<https://www.ncsbn.org/membership/us-members/contact-bon.page>

Student Acknowledgment: By enrolling in United Nursing College, students acknowledge that they have been informed of the professional licensure requirements and understand it is their responsibility to verify the requirements of any state in which they intend to practice.

Associate Degree in Nursing Program Learning Outcomes

Patient-Centered Care & Education (PCCE)

- Competently coordinate and administer patient-centered care for diverse patient populations with complex needs.
- Implement education that is patient-specific.

Teamwork & Collaboration

- Demonstrate collaboration within the multi- and interdisciplinary team that fosters mutual respect and shared decision-making to achieve optimal patient outcomes.

Evidence-Based Practice

- Analyze and implement up-to-date evidence-based research to inform nursing practice.

Clinical Judgment & Reasoning (CJR)

- Demonstrate clinical reasoning to provide safe, high-quality patient care.

Quality Improvement

- Determine and prioritize activities that improve quality of care and patient outcomes.

Safety

- Practice safe nursing care that minimizes risk of harm across systems and patient populations.

Informatics

- Utilize electronic-based resources consistently to inform decision making for optimal patient outcomes.

Professionalism

- Demonstrate professional behaviors through self-reflection and activities which encompass the legal and ethical framework of nursing.

Official Federal Occupational Category for ADN	
United States Department of Labor's Standard Occupational Classification (SOC):	29-1141
Potential Occupation/Employment/Job Title:	Registered Nurse

Registered Nurse (29-1141) assesses patient health problems and needs, develops and implements nursing care plans, and maintains medical records. Administer nursing care to ill, injured, convalescent, or disabled patients. May advise patients on health maintenance and disease prevention or provide case management. Licensing or registration required. Includes Clinical Nurse Specialists.

Associate Degree in Nursing (ADN) Program Overview

United Nursing College confers an Associate Degree in Nursing to graduates who transfer in the required minimum of 30 units of pre-requisites and general education courses and complete the 36.5 units of core nursing courses listed below for a total of **66.5 semester units**. The 64-week program length and 1176 instructional hours apply only to the nursing coursework completed at United Nursing College. Prerequisite and general education coursework transferred from other institutions are not included in institutional instructional hours, program length, or the grant of accreditation.

The table below lists the 30 semester units of pre-requisites & general education courses required by the California Board of Registered Nursing for licensure. Students are required to transfer these credit units from another accredited institution or demonstrate equivalency in accordance with the institution's Credit Award Policy to earn the Associate Degree in Nursing (ADN) at UNC.

Required Prerequisites & General Education Courses ADN (30 semester units) Students must transfer these courses from another accredited institution.	
Course	Semester Units
Oral Communication (3 units) Written Communication (3 units)	6 (9 quarter) units
Anatomy & Physiology I with lab (4 units) Anatomy & Physiology II with lab (4 units) Microbiology with lab (4 units) Behavioral sciences (3 units) Social sciences (3 units)	18 (27 quarter) units
Humanities (3 units)	3 (4.5 quarter units)
Intermediate Algebra or higher (3 units)	3 (4.5 quarter units)
*Pre-requisite & General Education Total Units/Hours/Weeks	30 semester or 45 quarter units

**Unit/Hr Carnegie formulation:*

Theory: 1 unit = 1 hr/wk x 15 wks (15 hrs)

Lab: 1 unit = 2 hrs/wk x 15 wks (30 hrs)

ADN Courses Offered at United Nursing College and Required for Graduation

The table below outlines the sequence, credit allocation, and instructional hours for the core nursing courses delivered at United Nursing College. These courses constitute the required 36.5 semester units of nursing instruction and include both didactic and clinical components completed over 64 weeks. All instructional hours reflected below are included in the program's total length and are delivered in accordance with California Board of Registered Nursing requirements.

ADN Core Courses (36.5 semester units)		
Semester/Course	Semester Units	Hours/Weeks
Semester 1 NURS 100 Fundamental Nursing Concepts	10 units (5.5 lecture; 4.5 lab)	88 theory 216 lab
Semester 2 NURS 110OB Concepts of Health for the Childbearing Family NURS 120P Concepts of Health for Pediatrics NURS 130MS Medical-Surgical Concepts	9 units (4.5 theory; 4.5 lab) <u>Each course:</u> 3 units (1.5 theory; 1.5 lab)	72 theory 216 lab <u>Each course:</u> 24 theory; 72 lab
Semester 3 NURS 210B Concepts of Behavioral Health NURS 220G Concepts of Health for Geriatrics NURS 230MS Intermediate Medical Surgical Concepts	9 units (4.5 theory; 4.5 lab) <u>Each course:</u> 3 units (1.5 theory; 1.5 lab)	72 theory 216 lab <u>Each course:</u> 24 theory; 72 lab
Semester 4 NURS 240 Advanced Medical-Surgical Concepts	8.5 semester (3.5 lecture; 5 lab)	56 lecture 240 lab
**Core Nursing Courses at UNC Total Units/Hours/Weeks	36.5 semester units	1176 hours 64 weeks

***Unit/Hr formula based on Carnegie & California code regulations Title 16, 1426:*

Theory: 1 unit= 1 hr/wk x 16 wks (16 hrs)

Lab (Clinical) 1 unit= 3 hrs/wk x 16 wks (48 hrs)

Over 500 of these hours are direct patient care with a minimum of 30 hours in each specialty nursing area specified by the CABRN (content areas include: Medical-Surgical nursing, Pediatrics, Obstetrics, Psych Mental health, and Gerontology).

Associate Degree in Nursing Graduation requirements:

In order to satisfy program completion, each student must meet all program requirements by completing a minimum of 30 transferred semester credit units of general education (GE) and prerequisite courses. In addition, students must complete 36.5 nursing credit units at UNC for a combined total of 66.5 semester units. Students must earn a minimum of 70% in the theory content for all nursing courses and pass all nursing laboratory and clinical components. For all pass/fail components, standardized rubrics are used to determine passing.

These rubrics are located in each course syllabus and provided on day one of each course enrollment. Students must also meet all attendance requirements outlined in the program's syllabi.

Students must complete the required nursing coursework at United Nursing College, except for any credit awarded in accordance with the institution's Credit Award Policy, to be eligible for degree conferral.

Associate Degree in Nursing Program Course Descriptions

NURS 100 Fundamental Nursing Concepts

Units: 10 units (semester units)

Course Length: 16 weeks

Theory: 88 hours

Lab/Clinical: 216 hours

Textbooks:

- Medical-Surgical Nursing: Concepts for Interprofessional Collaboration, 11th Edition, ISBN 9780323879040.
- Fundamentals of Nursing, 3rd Edition, ISBN 9780323828116
- Calculation of Drug Dosages: A Work Text, 12th Edition, 9780323830874

The Fundamental Nursing Concepts course will expose students to the foundations of nursing in caring for patients at any stage of life and those with chronic conditions. The fundamental units of learning serve as the classic underpinnings for future clinical practice and are designed to be carried throughout the remaining portions of the program. This course introduces basic nursing concepts within the domains of Biophysical, Client Attributes, Nursing, and Health Care. Nursing concepts will include Elimination, Nutrition and Digestion, Regulation and Metabolism, Sensory Perception, Mobility, Oxygenation, Perfusion, Tissue Integrity, Immunity, Fluid, and Electrolytes/Acid-Base Balance, Infection, Comfort, Stress and Coping, Abuse and Violence, Development, Diversity, Wellness, and Health Promotion, Communication, Professional Identity, Clinical Judgment, Ethical Practice, Legal Issues, Quality Improvement, Informatics, and Health Care Delivery. There will be an introduction to patient-centered nursing care, therapeutic communication, nursing assessment throughout the lifespan, pharmacology, medication administration, and fundamental nursing skills. Students will demonstrate safe nursing care and practices for clients with expected or predictable outcomes, incorporating the concepts discussed in this course.

NURS 110OB Concepts of Health for the Childbearing Family

Units: 3 units (semester units)

Course Length: 5 weeks

Theory: 24 hours

Lab/Clinical: 72 hours

Pre-requisites: NURS100

Textbooks:

- Maternal-Child Nursing, 6th Edition, ISBN 9780323697903

- Fundamentals of Nursing, 3rd Edition, ISBN 9780323828116
- Calculation of Drug Dosages: A Work Text, 12th Edition, 9780323830874

The Concepts of Health for the Childbearing Family will introduce the healthy, innate processes that occur during pregnancy and childbirth, as well as the acute care decisions relating to comorbidities and the promotion of optimal maternal-newborn outcomes. This course builds upon NURS 100, incorporating nursing concepts within the domains of Biophysical, Client Attributes, Nursing, and Health Care. Concepts will include Regulation and Metabolism, Reproduction, Mood and Affect, Abuse and Violence, Development, Diversity, Grief and Loss, Wellness and Health Promotion, Legal Issues, and Quality Improvement. This course expands on nursing assessment, pharmacology, medication administration, nursing skills, and the nursing process in relation to the childbearing family. Students will demonstrate safe nursing care and practices, incorporating the concepts discussed in this course.

NURS 120P Concepts of Health for Pediatrics

Units: 3 units (semester units)
 Course Length: 5 weeks
 Theory: 24 hours
 Lab/Clinical: 72 hours
 Pre-requisites: NURS100

Textbooks:

- Maternal-Child Nursing. 6th Edition. ISBN 9780323697903
- Fundamentals of Nursing, 3rd Edition, ISBN 9780323828116
- Calculation of Drug Dosages: A Work Text, 12th Edition, 9780323830874

The Concepts of Health for Pediatrics course provides students with the foundation to provide nursing care to the pediatric population. The concepts remain focused on differences in caring for children as compared with adults and includes topics related to both the well-child and those with health disorders. This course builds upon NURS 100 and NURS 110OB incorporating nursing concepts within the domains of Biophysical, Client Attributes, Nursing, and Health Care. Concepts will include Elimination, Nutrition and Digestion, Regulation and Metabolism, Sensory Perception, Mobility, Oxygenation, Perfusion Cellular Regulation, Immunity, Fluid and Electrolytes/Acid-Base balance, Infection, Intracranial Regulation, Cognition, Abuse and Violence, Development, Diversity, Wellness, and Health Promotion, Clinical Judgment, Ethical Practice, and Quality Improvement. This course expands on nursing assessment, pharmacology, medication administration, nursing skills, and the nursing process in relation to pediatrics and growth and development. Students will demonstrate safe nursing care and practices, incorporating the concepts discussed in this course.

NURS 130MS Medical-Surgical Concepts

Units: 3 units (semester units)
 Course Length: 5 weeks
 Theory: 24 hours
 Lab/Clinical: 72 hours
 Pre-requisites: NURS100

Textbooks:

- Medical-Surgical Nursing: Concepts for Interprofessional Collaboration, 11th Edition, ISBN 9780323879040.
- Fundamentals of Nursing, 3rd Edition, ISBN 9780323828116
- Calculation of Drug Dosages: A Work Text, 12th Edition, 9780323830874

The Medical-Surgical Concepts course integrates the knowledge, skills, and evidence-based cares required for stable patients with acute and chronic illness

This course builds upon NURS 100, NURS 110OB, and NURS 120P incorporating nursing concepts within the domains of Biophysical, Client Attributes, Nursing, and Health Care.

Concepts will include Elimination, Nutrition and Digestion, Regulation and Metabolism, Mobility, Oxygenation, Sexuality, Tissue Integrity, Cellular Regulation, Infection, Comfort, Diversity, Wellness, and Health Promotion, Communication, Professional Identity, Legal Issues, Quality Improvement, and Informatics. This course expands on nursing assessment, pharmacology, medication administration, nursing skills, and the nursing process in relation to the nursing care of clients with unpredictable outcomes across the lifespan. Students will demonstrate advanced nursing care and practices, incorporating the concepts discussed in this course.

NURS 210BH Concepts of Behavioral Health

Units: 3 units (semester units)

Course Length: 5 weeks

Theory: 24 hours

Lab/Clinical: 72 hours

Pre-requisites: NURS100

Textbooks:

- Varcarolis' Foundations of Psychiatric - Mental Health Nursing, 6th Edition, ISBN 9780323697095
- Fundamentals of Nursing, 3rd Edition, ISBN 9780323828116
- Calculation of Drug Dosages: A Work Text, 12th Edition, 9780323830874

The Concepts of Behavioral Health course prepares students to care for individuals with mental and behavioral health problems. With an evidence-based approach, the course integrates equitable interdisciplinary care aimed at maintaining patient safety and illness recovery. This course builds upon NURS 100, NURS 110OB, and NURS 120P and NURS 130S, incorporating nursing concepts within the domains of Biophysical, Client Attributes, Nursing, and Health Care. Concepts will include Sexuality, Comfort, Stress and Coping, Mood and Affect, Cognition, Abuse and Violence, Diversity, Wellness and Health Promotion, Communication, Legal Issues, Quality Improvement, and Health Care Policy. This course expands on nursing assessment, pharmacology, medication administration, nursing skills, and the nursing process in relation to mental health. Students will demonstrate safe nursing care and practices, incorporating the concepts discussed in this course.

NURS 220G Concepts of Health for Geriatrics

Units: 3 units (semester units)

Course Length: 5 weeks

Theory: 24 hours
Lab/Clinical: 72 hours
Pre-requisites: NURS100

Textbooks:

- Toward Healthy Aging, 11th Edition, ISBN 9780323829663.
- Fundamentals of Nursing, 3rd Edition, ISBN 9780323828116
- Calculation of Drug Dosages: A Work Text, 12th Edition, 9780323830874

The Concepts of Health for Geriatrics focuses on nursing activities in the care of the older adult patient. Nursing activities range from preventative care to the acute conditions and treatments for the geriatric patient population, with a greater emphasis on the unique demands presented in geriatric patients. This course builds upon NURS 100 and NURS 130S and incorporates nursing concepts within the domains of Biophysical, Client Attributes, Nursing, and Health Care. Concepts will include Nutrition and Digestion, Regulation and Metabolism, Sensory Perception, Mobility, Intracranial Regulation, Comfort, Stress and Coping, Cognition, Abuse and Violence, Development, Grief and Loss, Professional Identity, Ethical Practice, Legal Issues, Quality Improvement, Informatics, and Health Care Delivery. This course expands on nursing assessment, pharmacology, medication administration, nursing skills, and the nursing process in relation to the older adult. Students will demonstrate advanced nursing care and practices, incorporating the concepts discussed in this course.

NURS 230MS Intermediate Medical Surgical Concepts

Units: 3 units (semester units)
Course Length: 5 weeks
Theory: 24 hours
Lab/Clinical: 72 hours
Pre-requisites: NURS130MS

Textbooks:

- Medical-Surgical Nursing: Concepts for Interprofessional Collaboration, 11th Edition, ISBN 9780323879040.
- Fundamentals of Nursing, 3rd Edition, ISBN 9780323828116
- Calculation of Drug Dosages: A Work Text, 12th Edition, ISBN 9780323830874

The Intermediate Medical Surgical Concepts course builds on previous courses for the development of complex thinking and decision making while caring for medical-surgical patients. Theoretical concepts are expanded to include identification and prioritization of evidence-based interventions for patients who have unpredictable outcomes or who demonstrate changes in health status. This course builds upon NURS 100, NURS 110OB, and NURS 120P, NURS 130S, NURS 210B, NURS 220G incorporating nursing concepts within the domains of Biophysical, Client Attributes, Nursing, and Health Care. Concepts will include Elimination, Nutrition and Digestion, Regulation and Metabolism, Mobility, Perfusion, Immunity, Fluid and Electrolytes/Acid-Base Balance, Diversity, Grief and Loss, Wellness and Health Promotion, Clinical Judgment, Quality Improvement, and Health Care Delivery. This course expands on nursing assessment, pharmacology, medication administration, nursing skills, and the nursing process in relation to the nursing care of clients with unpredictable

outcomes across the lifespan. Students will demonstrate advanced nursing care and practices, incorporating the concepts discussed in this course.

NURS 240MS Advanced Medical-Surgical Concepts

Units: 8.5 units (semester units)

Course Length: 16 weeks

Theory: 56 hours

Lab/Clinical: 240 hours

Pre-requisites: NURS230MS

Textbooks:

- Medical-Surgical Nursing: Concepts for Interprofessional Collaboration, 11th Edition, ISBN 9780323879040.
- Fundamentals of Nursing, 3rd Edition, ISBN 9780323828116
- Calculation of Drug Dosages: A Work Text, 12th Edition, ISBN 9780323830874

The Advanced Medical-Surgical Concepts course expands nursing practice and critical thinking in the promotion, maintenance, and restoration of health. Students use evidence-based interventions and complex decision-making when caring for acutely ill medical-surgical patients with unstable health problems. Students work collaboratively with the interdisciplinary team. Emphasis is placed on student roles as coordinators, facilitators, and patient advocates as they progress toward a competent entry level nursing practice. This course builds upon NURS 100, NURS 110OB, NURS 120P, NURS 130S, NURS 210B, NURS 220G, and NURS 230S incorporating nursing concepts within the domains of Biophysical, Client Attributes, Nursing, and Health Care. Concepts will include Regulation and Metabolism, Oxygenation, Perfusion, Tissue Integrity, Cellular Regulation, Immunity, Infection, Intracranial Regulation, Stress and Coping, Wellness and Health Promotion, Communication, Professional Identity, Clinical Judgment, Ethical Practice, Legal Issues, Quality Improvement, Informatics, Health Care Delivery, and Health Care Policy. This course expands on nursing assessment, pharmacology, medication administration, nursing skills, and the nursing process in relation to managing the care of multiple, complex clients across the lifespan. This course transitions the student to professional nursing practice.

LVN 30-Unit Option (non-degree licensure pathway)

Purpose: This option is not a program offered by United Nursing College, but a regulatory pathway that allows qualified LVNs to meet minimum educational requirements to be eligible to apply for the National Council Licensure Examination for Registered Nurses (NCLEX-RN) as a non-graduate.

Procedure: United Nursing College does not offer this option as a program of study and does not award a degree or certificate upon completion. This option is not included in the institution's application for accreditation and is excluded from all programmatic representations, including program length, tuition, and outcomes.

Individuals who choose this pathway should be aware of the following:

- This is a non-degree pathway, and participants do not earn an Associate Degree in Nursing.

- Eligibility for licensure may be limited to the State of California. Licensure in other states is not guaranteed.
- Individuals who complete this option may encounter limitations when seeking admission to advanced degree programs.
- Once the NCLEX-RN is taken under the non-degree option, the individual's status with the BRN cannot be changed to a degree-based graduate, regardless of any subsequent education completed.

Individuals interested in this option must:

- Hold a current, active, and unencumbered California LVN license
- Meet with the Director of Nursing to review eligibility and discuss the limitations of the option
- Sign an attestation acknowledging understanding and acceptance of the limitations associated with this pathway

Participation in any coursework associated with this option is not guaranteed and is subject to institutional approval, resource availability, and seat availability. Priority for clinical placement and enrollment is given to students enrolled in approved degree and certificate program pathways. Further information regarding the LVN 30-Unit Option may be obtained directly from the California Board of Registered Nursing www.rn.ca.gov

The LVN 30-Unit Option includes the following content areas as required by the California Board of Registered Nursing. Specific course titles and unit values may vary based on institutional curriculum and availability.

LVN 30-unit option (non-degree licensure pathway)

Total Units	Maximum units required for BRN eligibility	Up to 30 units*
Physiology (with lab)	Advanced human physiology content required for RN-level practice	4 units
Microbiology (with lab)	Foundational microbiology concepts applicable to nursing practice	4 units
Medical-Surgical Nursing	Nursing care of adult patients with acute and chronic conditions, including clinical experience	10-15 units
Geriatric Nursing	Nursing care of the aging population	2-3 units
Mental Health / Behavioral Health Nursing	Psychiatric and behavioral health nursing concepts	2-3 units
Total Units	Maximum units required for BRN eligibility	Up to 30 units*

* The LVN 30-Unit Option is defined by the California Board of Registered Nursing as a maximum of 30 semester units. Actual unit totals may vary based on institutional curriculum design. Coursework associated with this option is not offered as a defined program of study and is completed only as permitted under institutional policies, availability, and approval.

RN to BSN Program

Program Purpose and Description

The RN to BSN program is for licensed registered nurses or nursing students enrolled in the ADN program at United Nursing College (UNC) who are seeking a Bachelor of Science in Nursing Degree (BSN). This is not a program to become a registered nurse and is not intended to lead to initial licensure as a Registered Nurse. Completion of the RN to BSN program does not lead to initial licensure and does not expand scope of practice beyond that of a licensed Registered Nurse. UNC operates the RN to BSN program on a 10-week quarter system. The program is delivered in an asynchronous online format. All coursework in the RN to BSN program is delivered fully online and does not include clinical or hands-on training components.

The Registered Nurse (RN) to Bachelor of Science in Nursing (BSN) program is an undergraduate program with two entry pathways for:

1. Registered Nurses (RN) with an unencumbered California license or
2. Students who are concurrently enrolled in the ADN program at United Nursing College (ACE*)

*ACE stands for the ADN Concurrent Enrollment Pathway.

Admission requirements are outlined in the Admissions section of this catalog.

The RN to BSN program is designed to prepare students to advance empirical knowledge based on evidence-based research. Professional healthcare practitioners will learn how to transfer leadership and management skills to positively impact individual, community, and population health in a complex healthcare system. The program fosters lifelong learning and professional development for the purpose of collaboration and strategic planning of patient care delivery. The program is designed to support the academic and professional advancement of registered nurses to the baccalaureate level of nursing practice.

RN to BSN Program Designation

The Registered Nurse (RN) to Bachelor of Science in Nursing (BSN) program is an undergraduate program with two entry pathways (RN or ACE). The program does not provide pre-licensure education and is classified as a post-licensure program. The BSN is awarded only upon completion of all requirements, including ADN graduation and verification of RN licensure.

The RN to BSN program is a single program with two entry pathways: (1) post-licensure Registered Nurse (RN) entry and (2) ADN Concurrent Enrollment (ACE) pathway.

For students entering through the RN pathway, the program begins upon enrollment in RN to BSN coursework. For students entering through the ACE pathway, eligibility to begin RN to BSN coursework occurs after successful completion of the first term of the ADN program.

Disclosure for Out-of-State Practice - RN to BSN

Student location is determined at the time of enrollment based on the student's physical address and is used to evaluate program eligibility in relation to state authorization requirements. If a student relocates outside the State of California, the student must notify the institution as soon as possible, but no later than ten (10) calendar days after the change occurs. Upon notification of the student's relocation out of state, the institution will review whether the RN to BSN program is approved by the Board of Registered Nursing in that state. If a Board of Registered Nursing outside of the state of California does not approve the program in the student's new state of residence, the institution will provide direct written notice to the student within fourteen (14) calendar days of making that determination. This notification will advise the student that completion of the program may not be possible and may not meet licensure or employment requirements in the student's state of residence and that continuation in the program may not be possible.

Resources for Students

To find the contact information and specific requirements for a particular state, please visit the National Council of State Boards of Nursing (NCSBN) website:

<https://www.ncsbn.org/membership/us-members/contact-bon.page>

Student Acknowledgment: By enrolling in United Nursing College, students acknowledge that they have been informed of the professional licensure requirements and understand it is their responsibility to verify the requirements of any state in which they intend to practice.

RN to BSN Program Learning Outcomes

Patient-Centered Care and Education (PCCE)

- Integrate patient-centered care for the individual with multiple complicated contexts.
- Demonstrate cultural competence in the provision of care for diverse communities, groups, families, and individuals.
- Commit to the elimination of health disparities of vulnerable populations by advocating for social justice.
- Provide population health education spanning the delivery continuum, from illness prevention to disease management amidst diverse settings.

Teamwork and Collaboration (TC)

- Enhance the healthcare experience through engagement and collaboration among interprofessional partnerships for the purpose of optimizing care and patient outcomes.

Evidence-Based Practice (EBP)

- Transform population health through the engagement of scholarship and quality improvement research.
- Synthesize nursing theories and evidence-based knowledge from the arts, humanities, and other sciences when planning care across the health continuum.

Clinical Judgment and Reasoning (CJR)

- Apply critical inquiry and clinical reasoning when planning and providing care across the lifespan and in a variety of community and institutional settings.

Quality Improvement (QI)

- Express informed positions on issues and trends in nursing, opportunities for advocacy and strategies in taking social and political action for the well-being of all populations.
- Address global health issues as it relates to the role of nurse leaders.

Safety (S)

- Improve the quality and safety of care with the application of best evidence and emerging improvement science.

Informatics (I)

- Demonstrate professional writing proficiency within the profession of nursing.
- Analyze the legal, ethical, and financial implications of professional decisions which impact organizations, communities, groups, and individuals.
- Effective use of informatics and healthcare technologies to manage and evaluate the delivery of safe care in a variety of settings.

Official Federal Occupational Category for RN to BSN program	
United States Department of Labor's Standard Occupational Classification (SOC):	29-1141
Potential Occupation/Employment/Job Title:	Registered Nurse

Registered Nurse (29-1141) assesses patient health problems and needs, develops and implements nursing care plans, and maintains medical records. Administer nursing care to ill, injured, convalescent, or disabled patients. May advise patients on health maintenance and disease prevention or provide case management. Licensing or registration required. Includes Clinical Nurse Specialists.

RN to BSN Graduation Requirements

Upon completion of the following courses, in addition to all required courses, the United Nursing College will confer the Bachelor of Science in Nursing degree.

The following are the graduation requirements for the Registered Nurse (RN) entry pathway to Bachelor of Science in Nursing (BSN) and the ADN Concurrent Enrollment (ACE) entry pathway to Bachelor of Science in Nursing (BSN):

In order to satisfy program completion, each student must meet all requirements by completing an ADN equal to a minimum of 58 semester credit units (87 quarter units) to include prerequisites and nursing courses per BRN CCR1426, general education (GE) minimum of 26 semester credit units (39 quarter units) (both lower and upper division courses), and BSN courses equal to 36 semester credit units (54 quarter units). Students must earn a cumulative GPA of 2.0 across the program to meet graduation requirements. Students must earn a minimum of 70% in the theory content for all nursing courses and provide verification of active RN licensure prior to degree conferral. Successful completion of GE and Nursing credits yields a total of 120 semester credit units (180 quarter units).

Students enrolled through the ACE pathway may enroll in upper-division RN to BSN coursework only after successful completion of the first term of the ADN program.

RN to BSN Program Overview

The RN to BSN degree requires a total of 180 quarter units, including 66 quarter units completed at United Nursing College (12 upper division general education units and 54 core nursing units) and 114 quarter units applied from prior education or concurrent enrollment, including ADN coursework and lower and upper division general education. Only coursework completed at United Nursing College is included in program instructional hours, tuition, and the grant of accreditation. Students complete 10 core nursing courses and select 2 of 4 upper division general education courses offered at United Nursing College. The RN to BSN program includes only the 66 quarter units of coursework delivered by United Nursing College. All other credits are applied toward degree requirements in accordance with institutional transfer and credit award policies.

The 60-week program length and approximately 660 instructional hours apply only to the 66 quarter units of coursework delivered by United Nursing College. Students must complete a minimum of 66 quarter units in residence at United Nursing College to be eligible for degree conferral.

Credits listed on the table below may be earned through prior education, licensure, or concurrent enrollment pathway and are applied toward RN to BSN degree requirements. Credits earned through prior education, licensure, or concurrent enrollment are applied toward degree requirements but are not included in institutional instructional hours, program length, or the grant of accreditation. Credit applied toward the degree does not imply that such coursework was completed at United Nursing College.

Students enrolled in the concurrent enrollment (ACE) pathway complete RN to BSN coursework during designated academic periods, including intersession and scheduled breaks in the ADN program; only RN to BSN coursework is included in RN to BSN program instructional hours, program length, and the grant of accreditation.

RN-BSN Program credit from prior education, licensure, and concurrent enrollment pathway (Quarter Units)	
Course	Units
English/Communications <ul style="list-style-type: none"> • Oral Communication (3 units) • Written Communication (3 units) • Critical Thinking (3 units) ** 	13.5 quarter (9 semester) units
Related natural and social sciences: <ul style="list-style-type: none"> • Anatomy with lab (4 units) • Physiology with lab (4 units) • Microbiology with lab (4 units) • Behavioral sciences (3 units) • Social sciences (3 units) • Humanities (3 units) 	31.5 quarter (21 semester) units
Mathematics <ul style="list-style-type: none"> • Intermediate Algebra (3 units) • Statistics (3 units) ** 	9 quarter (6 semester) units
ADN Nursing courses*	54 quarter (36 semester) units
NCLEX-RN Licensure (lower division credit if needed)	6 quarter (4 semester) units
TOTAL UNITS from Credit from prior education, licensure, and concurrent enrollment pathway	114 quarter (76 semester) units

*ADN pre-licensure courses at UNC equal 36.5 semester units.

**May be lower or upper division level courses depending upon courses already taken

Required coursework at UNC is 66 quarter units encompassing 12 upper division elective general education and 54 quarter units of core nursing courses. The required content is approximately 660 hours over 60 weeks. All coursework completed at United Nursing College is delivered in a fully online, asynchronous format.

Credits listed in the table below represent coursework completed at UNC and are included in program instructional hours, tuition, and the grant of accreditation. Upper-division coursework is designed for students who have achieved advanced academic standing and is taken after completion of foundational lower-division coursework. For students in the concurrent enrollment (ACE) pathway, eligibility to enroll in upper-division RN to BSN coursework begins after successful completion of the first term of the ADN program.

RN to BSN program requirements: Coursework completed at UNC (60 weeks)		
Course	Units	Hours
*Upper division GE courses (choose a minimum of 12 quarter units) <ul style="list-style-type: none"> • ENG450-Critical Reasoning and Advanced Composition (6 quarter units)** • PSY400- Psychopathology (6 quarter units) • BST460- Biostatistics (6 quarter units)*** • BIO465- Exercise and Nutrition Physiology (6 quarter units) 	12 quarter (8 semester) units	120
BSN Core Nursing courses <ul style="list-style-type: none"> • NURS 310 Transition to Professional Nursing (4.5 units) • NURS320 Cultural Influences in Healthcare (4.5 units) • NURS330 Legal and Ethical Decision-Making in Nursing (4.5 units) • NURS 340 Information Technology in Nursing Practice (4.5 units) • NURS 410 Pathophysiology (6 units) • NURS 415 Health Assessment (6 units) • NURS 420 Concepts in Community and Public Health (6 units) • NURS 430 Nursing Leadership and Management (6 units) • NURS 440 Research & Evidence Based Practice (6 units) • NURS 445 Professional Research Project (6 units) 	54 quarter (36 semester) units	540
Total Upper division electives and Nursing Core Courses	66 quarter units	660 hours
TOTAL QUARTER UNITS REQUIRED FOR DEGREE 180		

*These courses are delivered by UNC & are included in the program's total credit hours, tuition, and length when completed at the institution. Students are required to complete 12 quarter units of upper-division general education by selecting two (2) courses from the options listed below.

**Meets requirement for GE lower division critical thinking requirement

***Meets requirement for GE lower division statistics requirement

RN to BSN Program Course Descriptions

NURS 310 Transition to Professional Nursing

Units: 4.5 quarter units

Course Length: 10 weeks

Theory: 45 clock hours

Textbook:

- Transitions to Professional Nursing Practice, ISBN 978-1-64176-090-4.

This course is designed to enhance the registered nurse's knowledge of the role of the professional nurse in meeting the health needs of society. The relationship between historical issues, trends, and theories and professional nursing practice will be analyzed. Students will examine behaviors related to various roles of the professional nurse, including caregiver, teacher, advocate, research consumer, and counselor. Additionally, this course addresses communication skills necessary to a professional nurse including writing and computer literacy.

NURS 320 Cultural Influences in Healthcare

Units: 4.5 quarter units

Course Length: 10 weeks

Theory: 45 clock hours

Textbook:

- Transcultural Nursing: Assessment and Intervention (8th Ed.) ISBN 978-0-323-69554-1

This course provides students with an overview of health issues and health disparities confronting culturally diverse populations in the United States. The course also addresses genetic, cultural, historical and demographic factors that influence these health issues and disparities, implications for culturally effective health care, and for development of health policy.

NURS 330 Legal and Ethical Decision-Making in Nursing

Units: 4.5 quarter units

Course Length: 10 weeks

Theory: 45 hours

Textbooks:

- Nurses Making Policy, Third Edition: From Bedside to Boardroom, ISBN 978-0826166456.
- Ethical and Legal Issues in Nursing 1st Edition, ISBN 978-1554813964

This course explores legal and ethical standards and considerations common to the healthcare environment, such as decision-making, privacy and confidentiality, bioethical dilemmas, and healthcare policy. This course also focuses on the distinct value system associated with the healthcare industry and the values of professionalism. Learners will evaluate legal and ethical issues and their impact on patient safety outcomes.

NURS 340 Information Technology in Nursing Practice

Units: 4.5 quarter units

Course Length: 10 weeks

Theory: 45 hours

Textbook:

- Essentials of Nursing Informatics, ISBN 978-1260456783

This course provides an overview of the resources and methods required to maximize the storage, retrieval, and use of information in health care. This includes understanding the role of the nurse informaticist; identifying nurse-sensitive outcomes that promote quality improvement measures; supporting the contributions nurses provide in relation to patient care; and examining workflow changes related to computerized management systems. This course explores technology in nursing and health care practice, research, education, and leadership.

NURS 410 Pathophysiology

Units: 6 quarter units

Course Length: 10 weeks

Theory: 60 hours

Textbooks:

- McCance & Huether's Pathophysiology: The Biologic Basis for Disease in Adults and Children 9th Edition, ISBN 978-0323789875

This course examines the response of the human body to disease processes. The etiologic, symptomatologic, and pathologic aspects of common deviations from normal physiology will be explored. Examines the rationale behind diagnosis and treatment of illness and injury and the contributing environmental and genetic components. Research advances in genetics and biomedical sciences are explored.

NURS 415 Health Assessment

Units: 6 quarter units

Course Length: 10 weeks

Theory: 60 hours

Textbooks:

- Physical Examination and Health Assessment, 8th Edition, ISBN 9780323510806

This course will examine the theoretical knowledge necessary to perform a comprehensive health history and physical examination on the pediatric, adult, and geriatric patient. Provides the opportunity for application of basic knowledge using case studies and virtual assessments related to performing a complete nursing health assessment of pediatric, adult, and geriatric patients.

NURS 420 Concepts in Community and Public Health*

Units: 6 quarter units

Course Length: 10 weeks

Theory: 60 hours

Textbooks:

- Community/Public Health Nursing, 8th Edition, ISBN 978-0323795319

This course examines diverse populations in the community setting. Those of varying cultures, spiritual values, geographic norms, and economic conditions. Vulnerable populations are explored with critical analysis, using the principles of epidemiology, social determinants, and value-based care to plan and intervene in areas of health promotion and disease prevention.

**This course does not meet the California Public Health Nurse Requirement (no clinical component).*

NURS 430 Nursing Leadership and Management

Units: 6 quarter units

Course Length: 10 weeks

Theory: 60 hours

Textbook:

- Leading and Managing in Nursing 8th Edition, ISBN 978-0-323792066

This course examines leadership and management models in relation to organizational and system-wide change. Particular attention is given to the identification of personal leadership styles and values. Importance is placed on the development of effective management and leadership skills, with an emphasis on effective communication. Topics include ethics, quality improvement, safety, interprofessional collaboration, group dynamics and conflict resolution, resource allocation, and strategic planning.

NURS 440 Research and Evidence-based Practice

Units: 6 quarter units

Course Length: 10 weeks

Theory: 60 hours

Textbook:

- Evidence-Based Practice for Nursing and Healthcare Quality Improvement, ISBN 978-0-323-48005-5

This course covers principles, concepts, and application of scientific inquiry to phenomena of concern to other health professions, nursing, and patient health experiences in the community setting. The course promotes the critical analysis of research findings as a basis for improving clinical practice. Quantitative and qualitative research methodologies are presented, and an overview of evidence-based practice is provided to prepare the student for the professional research capstone (NURS 445).

NURS 445 Professional Research Capstone

Units: 6 quarter units

Course Length: 10 weeks

Theory: 60 hours

Pre-requisite: NURS 440

Textbook:

- Evidence-Based Practice for Nursing and Healthcare Quality Improvement, ISBN 978-0-323-48005-5

The course combines scholarly activities designed to synthesize learning into professional nursing practice and impact health outcomes. Learners complete project-based experiences that support the integration of leadership and community health concepts in a practice-relevant setting. The professional capstone project offers learners the opportunity to propose a resolution to an issue or problem significant to nursing practice within a healthcare environment. Learners identify, design, and propose an evidence-based solution with guidance from faculty. The proposal must reflect syntheses and integration of course content and professional practice. The capstone project is an academic, non-clinical experience and does not include direct patient care or supervised clinical hours.

PSY 400 Psychopathology

Units: 6 quarter units

Course Length: 10 weeks

Theory: 60 hours

Prerequisite: Introduction to Psychology or higher

Textbooks:

- American Psychiatric Association (2022). Diagnostic and Statistical Manual of Mental Disorders, Fifth Edition-Text Revised. *American Psychiatric Association*. ISBN 978-0-89042-576-3.
- Morrison, J. (2023). DSM-5-TR Made Easy: The Clinician's Guide To Diagnosis. *The Guilford Press*. ISBN 978-1-4625-5134-7.

This 10-week course explores various syndromes, symptom awareness, prevalence, risk and prognostic factors, cultural-related issues, sex and gender related issues as it pertains to the syndrome, association with suicidal thoughts, and behaviors and comorbidity. This course is not intended for students to engage or provide a clinical diagnosis but to be aware of varying psychopathology in the field.

ENG 450 Critical Reasoning and Advanced Composition

Units: 6 quarter units

Course Length: 10 weeks

Theory: 60 hours

Textbook:

- The Practice of Argumentation: Effective Reasoning in Communication (Critical Reasoning and Argumentation), ISBN 978-1107681439

Prerequisite: College English Composition

This 10-week course explores advanced writing techniques and strategies to read and write critically. Through implementation of rhetorical strategies and the development of more advanced composition styles, students will be able to critically analyze and articulate arguments, distinguish fact from opinion, and strengthen logical reasoning. Special attention is given to evaluating evidence and reasoning, the building blocks of argumentation. The student is required to write between 6,500 and 8,000 words divided among several essay assignments.

BST 460 Biostatistics for Evidence-based Practice in Nursing

Units: 6 quarter units

Course Length: 10 weeks

Theory: 60 hours

Textbook:

- Essentials of Biostatistics for Public Health, ISBN 978-1284231977
- Statistics for Evidence-Based Practice in Nursing, ISBN 978-1284194678

Prerequisite: Intermediate Algebra or higher

The purpose of the course is to teach fundamental concepts and techniques of descriptive and inferential statistics with applications in health care, medicine, and public health. The course will introduce statistical methods used in biological and health science research. Fundamental probability theory, statistical inference sample size, inference for means and proportions, descriptive statistics, and principles of ethical research will be outlined, providing students a sound methodological foundation for public health practice.

BIO 465 Exercise and Nutrition Physiology

Units: 6 quarter units

Course Length: 10 weeks

Theory: 60 hours

Textbooks:

- Rawson, E., Branch, J.D., & Stephenson, T. (2023). Williams' Nutrition for Health Fitness and Sport ISE. McGraw Hill. (Electronic version provided in course)..

This course explores the intricate relationships between nutrition, physical activity, and human physiology, with a special focus on optimizing health and athletic performance. Students will examine the roles of macronutrients and micronutrients in energy metabolism, training adaptations, and recovery. Key topics include body composition, weight regulation, hydration, dietary planning, and evidence-based use of supplements and ergogenic aids. Through practical assessments, discussion, and analysis of scientific literature, students will learn to develop personalized nutrition and exercise strategies tailored to various health and performance goals. Emphasis is placed on critical thinking, evaluating health claims, and applying current research to support diverse populations. This course is ideal for students pursuing careers in health sciences, fitness, nutrition, or related fields.

Prerequisite: Anatomy and Physiology

OPTIONAL NON-TRANSFERABLE COURSES

The Anatomy & Physiology Refresher courses DO NOT fulfill the prerequisite requirements for Anatomy and Physiology. They are non-transferable and specifically designed for those who have already taken Anatomy & Physiology courses and are wanting to be refreshed of the information or gain an introductory understanding prior to entering their educational pathway into nursing, medicine, physical therapy, etc. There are no laboratory components within these courses. These are pass/fail courses for zero units. These courses are available for students who would like to apply to the ADN program and their Anatomy and/or Physiology courses are seven years old or older.

AP 100 Anatomy & Physiology I Refresher

Units: No Credit Units (Pass/No Pass)

Course Length: 8 weeks

Course Type: Online

Theory: 24 clock hours to complete (estimated 3 outside hours required per week)

Textbook:

- Anatomy, Physiology, & Disease: Foundations for the Health Professionals, 3rd Edition, ISBN13: 9781264130153

This course is the first of a two-course sequence and will highlight the important studies related to the structure and function of the human body including cells, tissues, and organs of the integumentary, skeletal, muscular, and nervous systems. The course emphasizes the interrelationships among body systems and regulation of physiological functions involved in maintaining homeostasis within the body.

AP 101 Anatomy & Physiology II Refresher

Units: No Credit Units (Pass/No Pass)

Course Length: 8 weeks

Course Type: Online

Theory: 24 clock hours to complete (estimated 3 outside hours required per week)

Textbook:

- Anatomy and Physiology, 2 Edition, ISBN 9781711494050

This course, the second of the two-course sequence, provides a continuation of the highlights of anatomy and physiology of the human body in relation to the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems. Portions of the course cover important concepts related to the body's metabolism, nutrition, acid-base balance, and the balance of fluid and electrolytes.

SECTION 8: TRANSFER INFORMATION

Notice Concerning Transferability of Credits and Credentials Earned At Our Institution

The transferability of credits you earn at United Nursing College is at the complete discretion of the institution to which you may seek to transfer. Acceptance of the Associate Degree in Nursing (ADN) and/or Bachelor of Science in Nursing (BSN) earned at this institution is also at the complete discretion of the receiving institution.

If the degree or credits earned at this institution are not accepted at the institution to which you seek to transfer, you may be required to repeat some or all of your coursework at that institution. For this reason, you should make certain that your attendance at this institution will meet your educational goals. This may include contacting the institution(s) to which you may seek to transfer to determine whether your degree or credits will transfer.

Students requesting transfer of credits from United Nursing College to other institutions will be charged a \$25.00 processing fee.

SECTION 9: GRADUATION INFORMATION

Graduation Requirements

Associate Degree in Nursing (ADN)

To be eligible for graduation, students must:

- Successfully complete all required courses in the program
- Achieve a minimum cumulative grade point average (CGPA) of 2.0

RN to BSN Program (BSN)

To be eligible for graduation, students must:

- Successfully complete all required courses in the program
- Achieve a minimum cumulative grade point average (CGPA) of 2.0

Timeframe for Completion

Students must complete their program within the maximum timeframe as defined in the institution's Satisfactory Academic Progress (SAP) Policy.

Graduation Clearance

All academic, financial, and institutional obligations must be satisfied prior to the conferral of the degree.
